THEORY OF SUBSIDENCE OF ATOLLS AND CORAL REEFS

ON LEAVING THE COCOS ISLANDS ON 12TH APRIL 1836 CHARLES DARWIN WROTE: *"I am glad we had visited these islands, such formations surely rank high amongst the wonderful objects of this world. We feel surprise when travellers tell us of the vast dimensions of the Bermuda and other great ruins, but how utterly insignificant are the greatest of these when compared to these mountains of stone accumulated by the agency of various minute and tender animals! This is a wonder which does not at first strike the eye of the body, but after reflection, the eye of reason."*
