

GEOFFREY FLACK TIBETAN STAMPS AND POSTAL HISTORY OPINION

Date: April 12, 2009

Number: 2388

In my opinion the block of Tibetan stamp illustrated on the right are genuine 2 Shokang "Official" (Scott #04, 1 1/3tr), Olive Green, VF/Mint Block of Six. Scarce Multiple – no complete sheets are known to exist, the largest known multiples are blocks of six. (The postal validity of the "Official" stamps of Tibet is in question, but these are genuine copies of Scott #04.)

TIBET: Scarce 1944 Censored cover from Gyantse, Tibet to Kathmandu, Nepal. Indian 3p & 1a 3p tied by GYANTSE Type B-4 (Hel. B16) cancel (dtd 14.3 .. ?). The cover was opened and censored and bears "OPENED FOR EXAMINATION (in Devnagari language) Censor Tape. Most examples of Censored Mail from Tibet were opened by the "English" censor .. Denagari Censor tape on Tibetan mail is very unusual. KATHMANDU Receiving Mark (dtd 1.11.2000 = March 1944). Censored World War Two mail from Tibet is Very Scarce - opened by 'native' language censors is very unusual.

Scarce 1955 cover from Pharijong, Tibet to Kalimpong, India. F.w. Chinese stamps tied by PHARI (Hel. C226) bilingual cancel (dtd APR 10 1955). (This is the earliest known example of this scarce cancel. Hellrigl records the earliest usage as 28.04.05, but A. Singer recorded it as 14.04.55.) Backstamped with KALIMPONG arrival (dtd 18.4.55). Earliest known usage of a Scarce Marking. (Ex. Smythies).

Very interesting 1955 postally used Picture Postcard from Oslo, Norway to Lhasa, Tibet via Yatung. Norwegian stamps tied by OSLO cds cancels (dtd 55.11.13) The front of the card also bears Tibet bilingual YATUNG (Hel. C232 - Scarce) cancel (dtd 55 10 30). Very early example of international mail being handled by the Chinese Post Office (The British-India Post Offices in Tibet officially closed down on April 11, 1955 and the Chinese Post Office became responsible for all international mail.) Corner creases but still in F/VF Condition. Very Scarce & Unusual Routing.

In my opinion the stamp illustrated on the right is an India U.P.U. 2a Rose (SG 326) tied to piece by Genuine Tibetan CHUSHU P. O. Type VIII (Hel. T40) cancel. Indian Stamps with Genuine Small Town Native Postmarks are quite unusual & scarce!

Shigatse, Tibet (China) Rare Confidential Mail: 1960s cover from the Political Department of Troop 409, Shigatse (overwritten on a preprinted cover of the Logistics Department of the Gyantse Military Sub-region) to the Court of Xinye County, Henan. It was applied with a boxed "secret" cachet, numbered 027. No stamps used (opened out for filing and damaged at the back) Attractive & Interesting Confidential Cover from Central Tibet. (Under the People's Republic, ordinary Official mail was delivered by the normal postal service. Confidential Official Mail was handled quite differently. In January 1953 the Central Confidential Communications Bureau (CCCCB) was set up under the Chinese Communist Party with a national network of dispatch offices up to the prefecture level. In April 1957 the CCCC relinquished this national network to the Provincial level and concentrated on Top Secret Documents. Confidential mails, short of State Secrets, were delegated to a special arm of the Postal Service, The Confidential Mail Department. A postal clerk was designated to receive confidential mail which was handled differently from ordinary mail. Confidential Mail covers are difficult to date exactly as date stamps were not used. Confidential Mail covers from China are scarce, those used from Central Tibet, Qinghia (Amdo) & Sikang (Kham) are very scarce!) Rare Confidential Mail cover from Central Tibet.
