La ciudad de Safed estuvo sitiada desde el 16 de abril hasta el 11 de mayo de 1948. El "Haganá" (Ejército de Defensa de Israel) tomó bajo su responsabilidad es mantener abierto un canal de comunicaciones para la correspondencia transportandola a Rosh Pina desde donde continuaba por los canales normales.

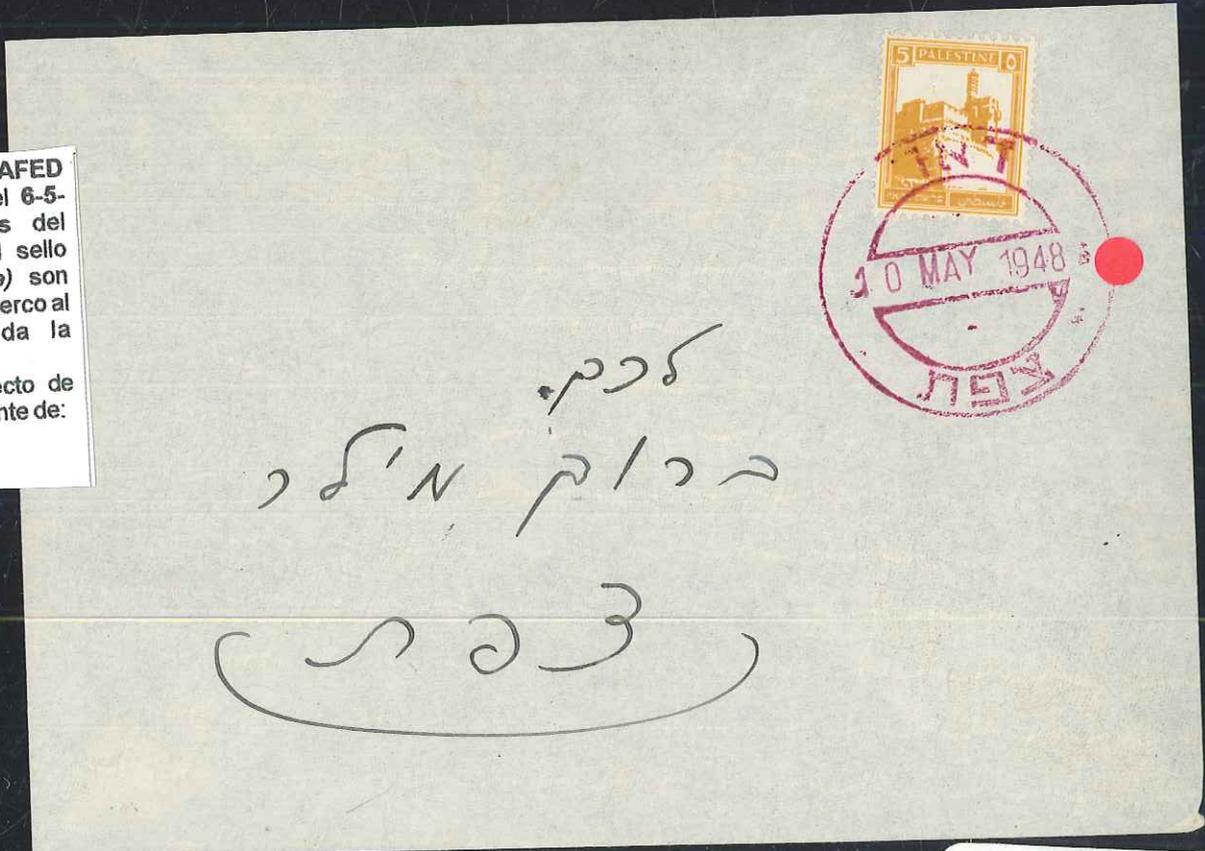

El oficial a cargo dispuso la impresión de un sello postal especial que se imprimió sobre el dorso de hojas preparadas para confeccionar sobres y la fabricación de matasellos locales.
