Postal Card

Letter Box Marking

Aus Jerusalem
Deutsche Post

Mail that was already franked was posted at a roadside box on the Jaffa - Jerusalem road.

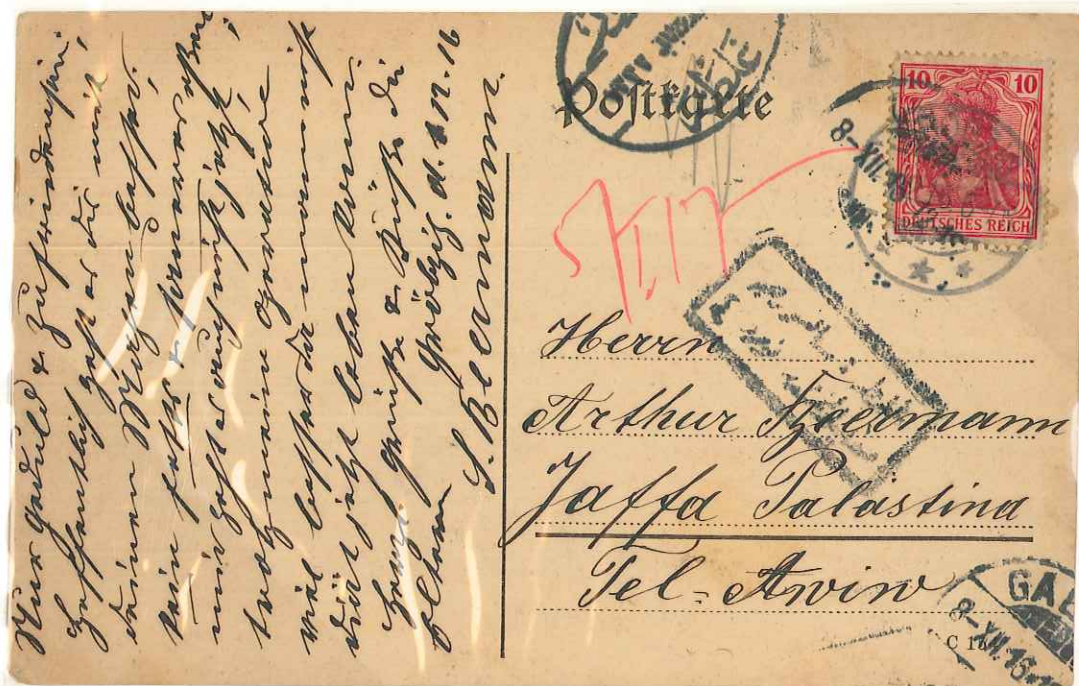

The card was then cancelled on arrival at the post office in Jaffa.

Postmarked 18.8.06

Fieldpost card with mute postmark 21.8.18 written on that date in Afula with sender's address FPO 663 and cachet "Eisenbahn-Baw-Sonder-Kompagnie Ne 11"

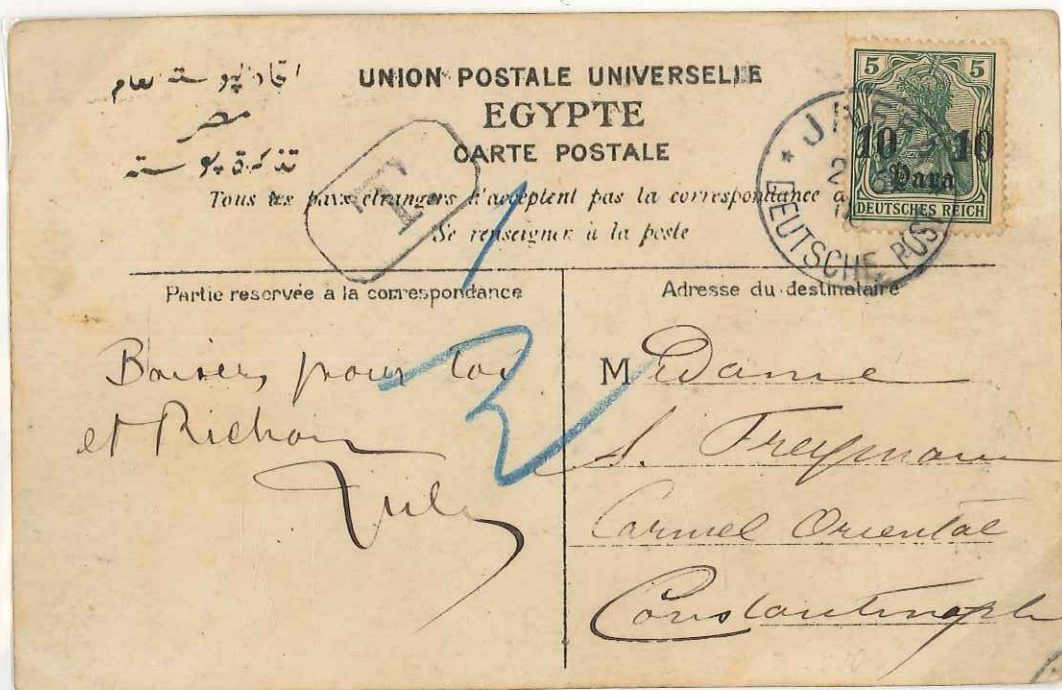

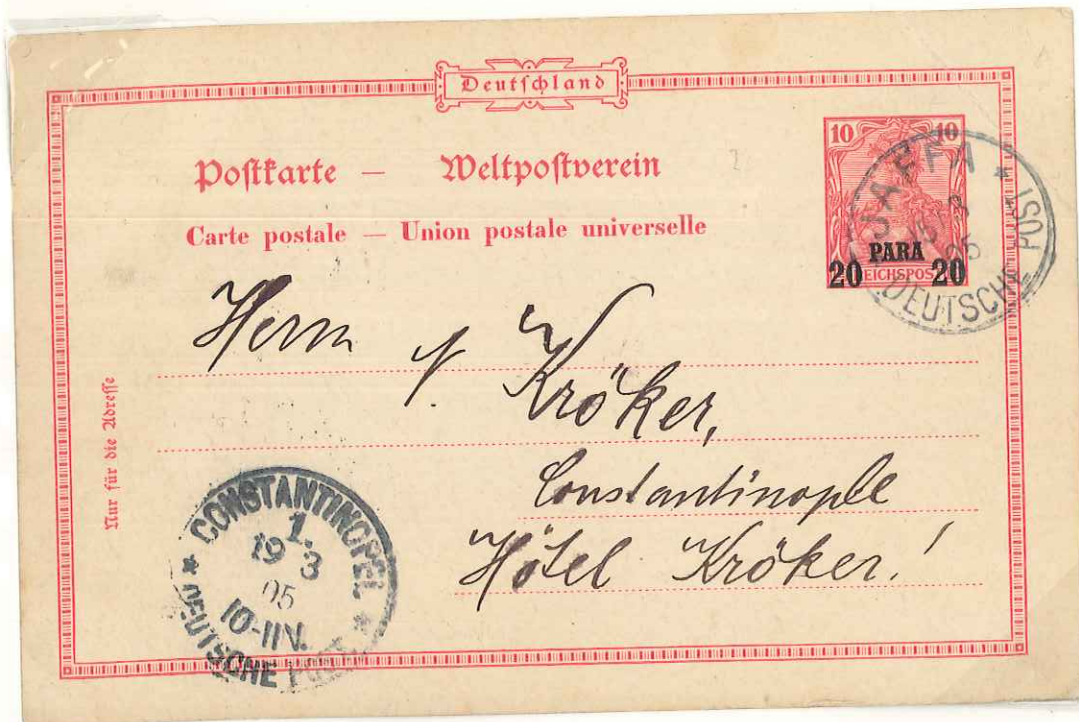

Two Cards - One Story

Pair of cards to Arthur Beermann who immigrated to Jaffa and later returned to Germany to serve in the Kaiser's army. The 1916 card is from his family in Grobzig, Germany. The 1917 card is from a friend in Jerusalem who utilized the German fieldpost.

German Post ----- Improper Usage

The "capitulation" post offices were not supposed to carry inland mail.

Above: Jaffa to Constantinople. Handled by the German post office.

Below: Jaffa to Constantinople. This time the Turkish post office was more alert and did not recognize the German franking. Rubber stamped "T" and in crayon the amount due.

Jaffa to Jerusalem

Postmark: Jaffa double circle with slash between day and month. This is the second of the two major types of Jaffa postmarks. Judged to be six times as scarce as the single circle.

From the German office in Jerusalem to Tiberias. The Germans did not have an office in Tiberias. The Turks should not have accepted the German franking for inland use.
