Opinion/Certificate # AF001958

I received for the opinion the following described by an applicant as:

Country	Year of issue	Catalogue number
Russia	1927	Scott # 374 var.

I have examined the enclosed item(s) submitted and
it is my opinion that it is:

"Dr. L.L. Zamenhof" - Esperanto,
14 kop. yellow green and brown,
Scott # 31a, Michel Michel 325ZU, SC 184 var.,
vertical pair, imperforated, full margins all around
(just closed on the top left), on un-watermarked wove
paper, used (CTO), very rare and genuine in all philatelic
respects (at the time of examination) and of which image
is attached.

Rare imperforated stamp variety especially in any multiples.
