We have enjoyed
our stay in Java much
more than we had anticipated
it is the most tropical
scenery we have ever seen
and the native life quite
unchanged as yet.
There are some wonderful
ruins here over 1200 years
old this will give you some
idea of the fine carvings
on the old temples, we
are to have nine days more in
Java sailing Dec 18 for Singapore

"Yaegaki Hime" — Somewhat analogous to
 the story of Romeo and Juliet, though it ends
 happily, is the story of Yaegaki Hime and her
 lover. There is a Kabuki dance in which this
 maiden is represented holding a helmet which
 there symbolizes her lover himself.

"Fuji Musume" or "Wistaria Maiden" —
 The wistaria vine in bloom wreathing itself
 round a pine tree is proverbially likened to a
 maiden in love with a young man. Here was
 a motif for the dramatist who created a Kabuki
 ballet called "Fuji Musume."
