### Stamps and Covers of Ust' Sysol'sk Zemstvo, Vologda guberniya

Eight cities issued zemstvos within Vologda guberniya. These included Ust' Sysol'sk, now Syktyvkar, which issued stamps between 1872 and 1917.

Ust' Sysol'sk was located in the centre of Vologda guberniya, north of St. Petersburg 720 miles east of it and about 150 miles south of the Arctic circle. Had an extensive timber industry, with saw mills, paper and pulp mills, and other wood-processing plants. Founded in 1780 to promote Russian colonisation of the north-east, by 1917 its population was 22,000.

Ust' Sysol'sk issued 28 stamps in 16 issues, with five main designs and many varieties. The 1902 Ardatov-type 'key-plate' design is featured on all of the following covers. 3-kopeck values were used till 1882, thereafter 2-kopeck and 5-kopeck ones.

Ust' Sysol'sk also issued nine successive postal stationery envelopes, the first in 1871. The designs and colours of the stamps imprinted on them were identical to those of the contemporaneous stamps.

Unused Ust' Sysol'sk 2 kopeck postal stationery envelope of 1895.
