Queen's Road Central, Hongkong.

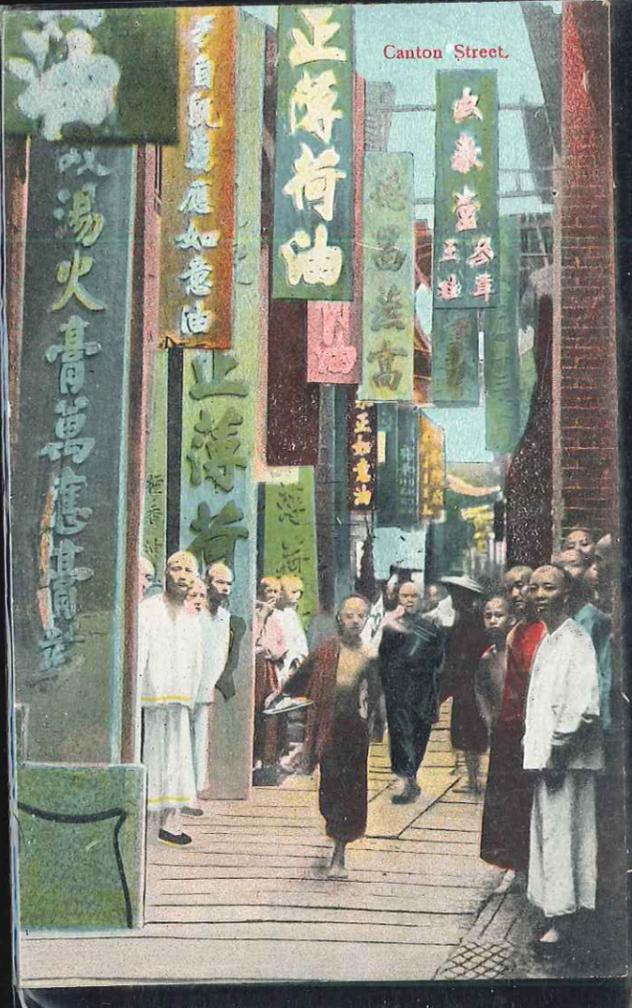

Chinese taking their Tiffin

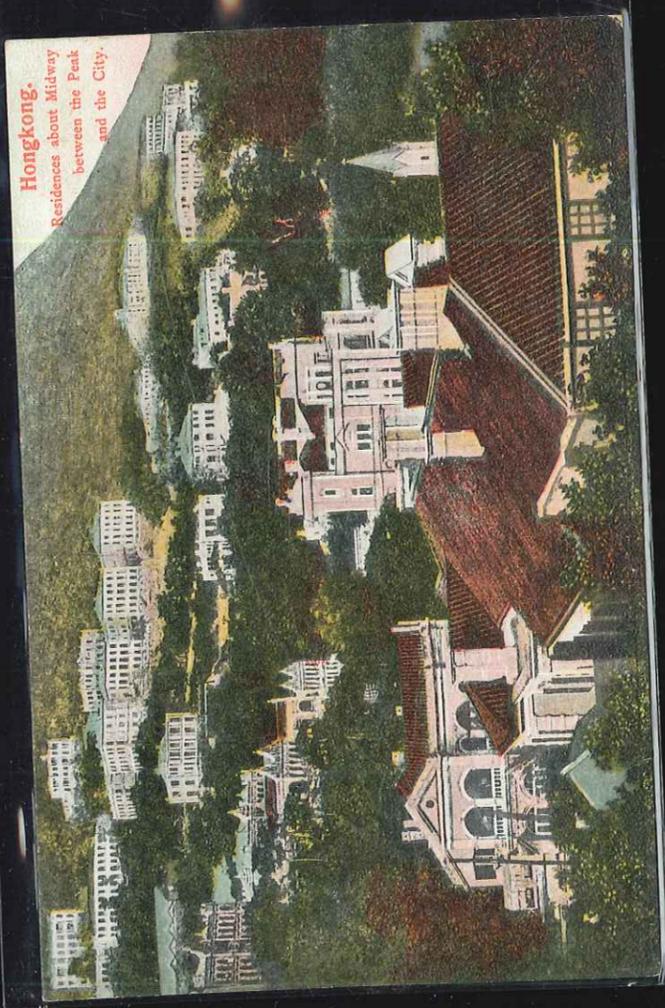

A Chinese Funeral.

The coffin is seen at the left side. On the steps can be seen two Chinese supporting a relative of the deceased. A mourner is not allowed to look towards the sky. The Chinese tradition says that a chinaman is not allowed to be carried down the steps he last came up from, so that bamboo steps have to be constructed, outside the house. These steps are built and pulled down in one day.
