

STANLEY GIBBONS
COMMONWEALTH OF
AUSTRALIA
STAMP ALBUM

**Volume 1
1913–1990**

STANLEY GIBBONS PUBLICATIONS LTD

By Appointment to H.M. the Queen, Stanley Gibbons Ltd, Philatelists

LONDON and RINGWOOD

General Notes

This album is designed to house a straightforward collection of Australian stamps from the first 'Commonwealth' issue of 1913 (or 1902 in the case of postage dues) up to the end of 1990. For the convenience of users all the 'Sports' definitives including those issued in 1991, are accommodated together in this volume.

Definitive Stamps

All changes of watermark, perforation and colour are catered for but shade variations are ignored as are pre-war stamps printed from more than one die, although the 1946 2s. (SG 212) is included, the difference between this and its predecessor (134) being illustrated on page iii. Space is also provided for both shades of the 1964–65 2s.5d. stamp. Variations due to 'Whiter', 'Fluorescent' and 'Helicon Papers' introduced during the 1960s and 1970s are omitted.

Space is provided for vertical pairs of coil stamps displaying the special perforations and 1970s shown on page iii.

Postage Dues

Owing to the complexity of the early issues, space is provided for a representative collection only, with watermark and major design changes catered for but not perforation differences or die changes. Blank leaves may be used to house a more specialised collection of Australian postage dues, full details of which may be found in the Part I *British Commonwealth Stamp Catalogue* or in the *Australia Concise Stamp Catalogue*.

Official Stamps

Space is provided for stamps *overprinted* 'OS' only, stamps bearing 'OS' in perforated initials may also be mounted on blank leaves.

Catalogue Numbering

The numbers given below each stamp are those given in the 1993 *British Commonwealth Stamp Catalogue*. Details such as watermarks and perforations are given only where this information is necessary for identification purposes, i.e. if a stamp is designated 'perf 15 x 14' then it almost certainly means that it also exists with an alternative perforation – if no perforation measurement is given then it means that only one exists.

Sequence of Leaves

Please note that pages 39a, 42a, 60a and 60b follow pages 39, 42, 60 and 60a.

Supplements

This album is complete to the end of 1990. Supplements are normally published annually in the spring, these contain pages on which to mount stamps issued during the preceding year and may also include replacement pages to be substituted for earlier ones. Details of the publication dates and prices of album supplements are published in *Gibbons Stamp Monthly* or may be obtained direct from the publishers at the address below.

Extra Leaves

Additional blank leaves are available for this album, item No. 0312.

Matching Volumes

Albums for Great Britain, Jersey, Guernsey, the Isle of Man, Canada and New Zealand are also available in a matching format.

464

Captain Cook Bicentenary

DISCOVERY OF EAST COAST OF AUSTRALIA IN 1770

Cook,
giant among
navigators,
enters the
Pacific ...

and fixes the
position of the
eastern part of
Australia ...

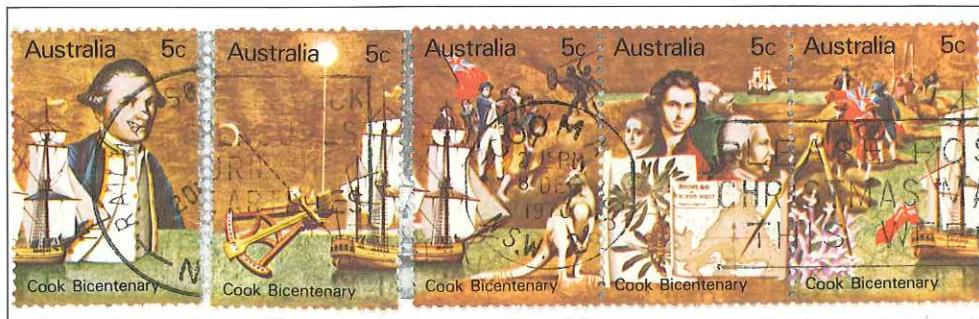

where he finds
new people and
strange animals.

He and his
scientists chart
the shores
and sketch
the flora ...

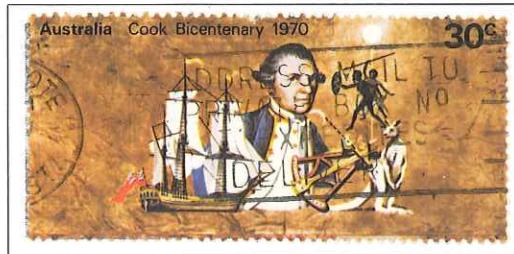

and sovereignty
is proclaimed
over the land
discovered.
