

UGANDA PROTECTORATE

Following a period of conflict between Islamic, Protestant and Roman Catholic factions, Uganda was declared to be in the British sphere of influence by the Anglo-German Agreement of July 1890. The British East Africa Company exercised a variable degree of control until 27 August 1894 when the country was declared a British Protectorate.

Before the introduction of Nos. 84/91 the stamps of Uganda were only valid for internal postage. Letters for overseas were franked with British East Africa issues on arrival at Mombasa.
