Introduction

Ricky Verra
Philatelist

Dear collector and client,

It gives us great pleasure to present our latest auction catalogue of Olympics and Football philately and memorabilia, which has brought together fantastic specialised collections from several vendors to produce this highly attractive offering of Olympics that I'm sure will have something of interest for every collector, no matter how seasoned!

The first is a specialised collection of the popular 1896 and 1906 Athens Games, and includes several rarities, many of which haven't been on the market for decades. It has been many years since we have been able offer such a number of 1896 first day cancels from the Athens numbered cancels as well as smaller towns and villages, including a unique first day cover from Milos. However, the star item of this section has to be the largest known commercial franking of the 1896 issue. The 1906 collection offers a range of proofs, cancellations during the Games and varieties, as well as one of only 2 known first day covers with the complete set.

The second significant collection is certainly the largest offering of 1912 Stockholm cancellations we or anyone else have ever offered. The "LBR / STADION" and "STADION" cancels range from scarce to extremely rare, and provides a once-in-a-generation opportunity for those collectors searching for specific dates of the Games to match to events on those days.

The third collection covers one of the least known and researched areas of Olympic philately and memorabilia; the build up and fall-out of the cancelled Games of Berlin in 1916. Again, we have never seen another collection of the 1913 "DEUTSCHES STADION" cancels like this before. The cancels from the inauguration of the stadium are very scarce, but this offering not only shows these cancels from different times during that day, but also very rare examples from days when other sporting events and trials were held there.

The fourth collection of note is from the 1924 Paris Games, including a range of the attractive die proofs from different stages of the design process, as well as varieties and usages of this highly collectable Olympic issue, including two of the eight known covers with the 50c imperforate variety.

And last but by no means least, there is the "Alba" collection of Football at the Olympics, World Cup and European Championships which includes autographed covers collected by the vendor over 60 years and which have never been on the market before, as well as postcards, Olympic cancels on the days of football matches, memorabilia, etc.

So we trust you will be able to find something to add to your collection, and we wish you success with your bids and satisfaction with your purchases!

Finally, we would very much like to thank Manfred Bergman for his expertise and assistance in producing this catalogue.

Geneva, March 2019

INTRODUCTION

Olympic philately has evolved since the Italian IOC member Bonacossa started an Olympic stamp collection back in 1925. Some collectors began their collection in 1936, and the past IOC President, J.A. Samaranch started his collection in 1945. The Italian school started in 1950, followed closely by the German IMOS in 1952.

Olympic philately has evolved into two streams – the purely philatelic one and (in majority) the thematic one. Lately, the trend is a confluence of both streams. Whatever the road chosen by the collector, there is one aspect which is overlooked, the INTER-DEPENDENCE of the items in this catalogue. The collections presented are a good example of facilitating INTER-DEPENDENCE, so let us have a closer look at what is meant by this term.

PHILATELIC INTER-DEPENDENCE means the close relation of two or more items. This relation is overlooked, by which it is meant that the collector is satisfied with one item of the two or more related items. A good example would be the 1st day material of the 1896 OG : One will find one stamp or cover cancelled at one widow of the only Post Office in Athens. On March 25th 1896, eight windows were operational at the PO. To have one item of that day is nice, but for a more instructive and explicit collection, it would be better to have 1st day items from as many windows as possible.

A second good example would be the proofs and essays of the 1924 Paris Olympics. Most collectors have already several items, but none (to the best of our knowledge) have shown and explained all the stages of their

progress to the definite design. This auction offers the possibility to acquire many of the possible different stages.

THEMATIC INTER-DEPENDENCE is manifold. Admittedly, some of the latter have already been practised (daily programs, propaganda, cancellations, etc.) but the presented material allows for in-depth exploration and the exploitation of such INTER-DEPENDENCE.

Take for instance, as an example, the postcards from the inauguration ceremony of the Berlin Stadium on 8.6.1913. It is true that the scarcity of the known cards – and the price asked in the past – resulted in most of the more advanced collector to be satisfied with one item. However, many different things took place on the stadium that day. The opportunity is given to document all the events of that day because the cancellations were altered every hour (from noon to 8pm).

Another good example are the postcards (LBR or Stadion) from the 1912 Stockholm OG. The INTER-DEPENDENCE is clear (the daily programme) but more so if one looks at the amount of cards cancelled every day (see table in the introductory text to this section) which influences the degree of rarity. This example shows both Thematic and Philatelic inter-dependence. A further Thematic INTER-DEPENDENCE are the preparations (pre-Olympic) for the 1916 OG that were to take place in Berlin. This chapter should and must include the German preparations (civil and army), the Russian ones in Kiev and Riga, the 1914 IOC Congress in Paris, the Baltic Games in Malmö (1914) and the Replacement Games in Stockholm and Holland (1916).

Olympic Games and Football

Award Winning Collections

Themes that span many Olympic Games can be developed on Olympic symbols (rings, flag, victory, Olympic relays, etc.), Olympic ceremonies, Politics at the Games, Olympic venues – all of which are examples of INTER-DEPENDENCE.

We must also add the chapter on DELTIOLOGY- the study of illustrated postcards. The IPCS are the visual documents of Olympic history, and designed for postal use. The IPCs should be part of an Olympic collection. Their importance is especially significant for the 1912 and 1924 OG. Remember that a picture is worth a thousand words!

Finally, one important fact has almost, if not completely, been ignored – the adverse sport movements which were ideologically omnipresent. Amongst the most significant ones, one should include the Workers Olympiads, the Spartakiads, the Deutsche Kampfspiele, the Turnerfests and the SOKOL games. Adding postal documents of the above movements ought to be part of an advanced Olympic collection.

Should you be interested in the INTER-DEPENDENCE of the lots in this catalogue, do visit the David Feldman website, where you will be able to view the lots by Games, but also by their thematic aspects, such as mythology, Olympic stadiums, ceremonies, etc.

1912 Stockholm set of 16 Official Posters, each 75 x 106cm (29.5" x 41.7"), designed by Olle Hjörtzberg, Swedish Professor at the Royal Academy of Fine Arts and printed by A. Bortzells, Stockholm, depicting nude young man waving flags of all the participating nations. The sixteen posters come in the following languages: English, German, Swedish, French, Russian, Spanish, Dutch, Italian, Portuguese, Finnish, Hungarian, Japanese, Turkish, Greek, Bohemian and Chinese which happens to be the rarest as only 350 were printed. Due to the age and size of the posters all have small minor faults including creases and tears.

60-80'000

An important and unique opportunity to acquire a piece of Olympic history. This being the only known complete set of sixteen posters in private hands (it is understood that there are only two other complete sets both being in museums).

Background: On 27 June, 1911, the Swedish Olympic Committee met to adopt a design for the official poster to promote the 1912 Stockholm Olympic Games around the world. They determined to accept an artwork sent in by Swedish artist Olle Hjörtzberg, of the Royal Academy. A design by Thorsten Shonberg came as runner up, and a proposal by Axel Törneman was placed third. Hjörtzberg's design, which had been sent to the Committee in 1910, was slightly altered to represent the "common goal of the Olympic Games", instead of the originally intended "march of the nations", depicting each athlete waving a flag. The motive of the poster, while its artistic merits have been universally acknowledged, was criticised from both advertising and diplomatic points of view. It was said then that Shonberg's design, representing the entrance of a marathon runner into a festively decorated stadium, would have been far more effective, and that the order of various standards shown in the chosen poster might awake discontent and give rise to unnecessary disputes. Moreover, in several public places outside Sweden, the poster's exhibition was categorically forbidden for moral considerations. Particularly, in China, the Postmaster General prohibited its exhibition as "being offensive to the Chinese ideas of decency", and in Holland, a poster hanging at a railway station was confiscated as being "in the highest degree immoral". The poster was printed by A. Börtzells Tr. A. B., Stockholm in seven colours and with a size of 74.5 cm x 107 cm. The artwork was also used for an advertising stamp, a pamphlet and the general programme.

1924 Paris

The original set of four Paris Olympics stamps included a 50c value which depicted the Roman arena in Nemes. However this was later decided to be unsuitable for an Olympics stamp for various reasons, including the fact that it was used in the past for professional sports. So the design for the 30c value then became the issued 50c, and a design for the 30c value came from a statue in the Louvre. This explains why these two values were issued later, and also explains the multiple progressive proofs of the Nemes arena design.

Here are the printing stages of the proofs for the Paris Olympics stamps:

1.	Artist proof (Épreuve d'artiste): (a) in black and (b) mono-colour, 2-10 examples
2.	Status proof (Épreuve d'état): Can be in several stages showing the progression of the project. The last stage were proofs of the frames and centres separately and combined.
3.	Printer's proof (Épreuve d'atelier): The definitive accepted design for the printers
4.	Colour proofs and trials (Épreuve de couleurs): In 3-10 colours. One 25c proof exists with control perforation. The modified 50c exists on large sheetlets.
5.	Definitive printer's proof (Épreuve d'imprimerie définitive): In definitive colours, (a) with coloured mould frame and (b) without coloured mould frame
6.	Individual luxury proofs (Épreuve de Luxe individuelles): 10 of each value with control perforation
7.	Collective luxury proofs (Épreuve de Luxe collectives): 153 printed in 1924, found in three variants, (a) with control perforation at the right side, (b) with control perforation at the bottom, and (c) with no control perforation (offered at the UPU Congress)
8.	Imperforate printing of the sheets of 150 stamps (Feuille témoin)

Football

The “Alba” collection of Football has been formed by the vendor over 60 years, and features stamps, covers, postcards, autographs and memorabilia in 4 sections; football at the Olympics, World Cup, European Championships and an A-Z of countries with national and club teams.

The passion shown by the collector is obvious throughout and especially apparent in the 1966 World Cup and European Championship collections for example, with many covers hand made by himself for each fixture and sent from the stadium’s local post office on the day and invariably signed by the players themselves who played. Over the years the vendor was able to meet and even had friendships with some of the great players from the 1960s, ‘70s and ‘80s, so the provenance of vast majority of the autographs is impeccable, as evidenced by letters written to players and photos of himself with legends such as Pele, Bobby Moore, Beckenbauer, etc. This is the collection of a true football fanatic and autograph hunter.

The collections have won awards at national and international thematic stamp exhibitions, and he was invited by FIFA to exhibit at the 1982 World Cup in Spain and the 1998 World Cup in France, as well by the IOC at the 2006 Beijing Olympics.

The following lots from the “Alba” collection of Football at the Olympics feature in the Olympic section of the catalogue:

10001, 10007, 10082, 10088, 10090, 10155, 10156, 10162, 10169, 10202, 10235, 10243, 10258, 10284, 10291, 10366, 10388, 10392, 10404, 10406, 10418, 10437, 10441, 10442, 10499, 10500, 10583, 10595, 10619, 10631, 10632, 10634, 10653, 10673, 10675, 10684, 10716

Conditions of Sale

The currency of the auction is the Euro (€)

Participation in any David Feldman S.A. auction means acceptance in full of the following conditions as well as any rights and obligations arising therefrom. These same conditions also apply to all transactions taking place outside the realm of the auctions. DAVID FELDMAN S.A., organiser of the auctions, acts as an agent only and is not liable in any way whatsoever for any default(s) of purchaser(s) and/or vendor(s).

1. The auction lots are offered

1.1 As presented in the relative auction catalogue and/or through the David Feldman S.A. website. Lots are meticulously described and with the greatest care, however without responsibility. Photographs count as part of the description with regard to the margins, perforation, centering, postmarks and all other visible attributes. The descriptions of the lots mention if the items are signed by recognised experts and/or accompanied by expert certificates.

1.2 As viewed in person: before and during auction sales, persons or their agents may examine lots at our offices or at the auction location, and must confirm their auction invitation before viewing. Persons or their agents attending a Live Room auction by invitation and/or who have viewed lots before an auction are understood to have examined all lots which they purchase and accept them as they are at the moment of the knocking-down and not necessarily as described.

2. Auction bids

2.1 The auction bid steps for all auctions are as follows: (some auctions may be in other currencies than Euros)

€ 50 - 100:	€ 5	€ 2'000 - 5'000:	€ 200
€ 100 - 200:	€ 10	€ 5'000 - 10'000:	€ 500
€ 200 - 500:	€ 20	€ 10'000 - 20'000:	€ 1'000
€ 500 - 1'000:	€ 50	€ 20'000 - 50'000:	€ 2'000
€ 1'000 - 2'000:	€ 100	€ 50'000 - 100'000:	€ 5'000

Bids between these steps will be adjusted accordingly to the next highest bid step. The bidder is bound by his offer until a higher bid has been validly accepted.

2.2 DAVID FELDMAN S.A. has full discretion to refuse any bidding, to divide any lot or lots, to combine any two or more lots and to withdraw any lot or lots from the sale without in any case giving any reason. DAVID FELDMAN S.A. may also bid on behalf of vendors in cases where reserve prices have been fixed. In these cases, the vendor is treated as a buyer and the auctioneer shall bid on his behalf up to reserve prices. If the reserve price fixed by the vendor is not reached, the auctioneer passes to the next lot by a simple knock of the hammer.

2.3 Bid orders are only accepted from registered clients of DAVID FELDMAN S.A. and/or its associated companies. Live Room bidders must confirm their invitation prior to obtaining a bidding number.

2.4 Bid orders received by DAVID FELDMAN S.A. including via its website before the relative auctions have priority over room bids in the case of Live Room auctions. Clients giving bidding instructions to DAVID FELDMAN S.A. may make alternative offers and/or limit the total of their expenditure in advance. Bids marked "BUY" are considered as up to ten times the quoted estimate price where such exists. Bids made in other currencies than the advertised currency of the auction will be converted

into that currency at the market rate of the day of receipt by DAVID FELDMAN S.A. Bids are standing and hold good for at least 60 days from the auction period. DAVID FELDMAN S.A. reserves the right to invoice bidders up to the end of the 60 day period, payment being due immediately.

3. The auction

3.1 Unless explicitly stated otherwise, the currency of the auction is Euros. Attendance at the Live Room auction is reserved for invited clients and/or their agents.

3.2 Prerogatives of David Feldman S.A.: DAVID FELDMAN S.A. may withdraw, group differently, divide or refuse to knock down any lot. DAVID FELDMAN S.A. reserves the right to refuse any bid orders and/or for Live Room auctions, refuse admittance to the auction room, at its discretion, to anybody whomsoever. DAVID FELDMAN S.A. cannot be held responsible for any physical accident that may occur on the premises where auctions take place. In the case a bone fide offer for the entire collection presented in this catalog is received at least two weeks before the auction date, and would be accepted by the vendor and the auctioneer, it may be withdrawn from sale and the auction offer cancelled.

3.3 Bidders' representatives and auction agents: any person bidding for the account of a third party is fully liable for any obligation arising from such bidding. This responsibility is notably applicable for the verification of the condition and for the payment of purchased lots.

3.4 Winning Bids: each lot is sold on behalf of the respective owner to the highest bidder who becomes the buyer at one bid step over the next highest bid step; this is the knock-down price. A buyer's premium will be added to the knock-down price per lot and is payable by the buyer as part of the total purchase price. The buyer's premium is 22% of the knock-down price up to and including €50,000 and 20% on any amount in excess of €50,000. Cost of postage will be invoiced separately from the buyer's premium. On the knock of the hammer, liability for the lots passes to the bidder whose bids have been accepted. The lots are delivered to the buyer when the total sale price (knock-down price plus all fees) have been paid in full.

VAT (Sales Tax) - Notes for guidance concerning auctions for which the lots are located in Switzerland: buyers domiciled abroad are not liable for this tax once the goods are duly exported from Switzerland. DAVID FELDMAN S.A. are pleased to arrange this export; alternatively, clients may make their own arrangements and furnish DAVID FELDMAN S.A. with proof of export, stamped by Swiss customs. Any purchases by buyers who wish to keep their purchases in Switzerland will be liable to VAT at 7.7% of the purchase price in Swiss Francs at the converted Euro value during the auction. It is the buyer's responsibility to pay any relevant duties that may be incurred upon import to other jurisdictions.

3.5 Payment: Sale price plus buyer's premium and additional costs (if any) are due for immediate payment as invoiced against delivery of the lots. Payment in other currencies is accepted at the rates of exchange of the day as quoted by a major Swiss bank. The bidders who are successful with whom it has been expressly agreed that they pay after the sale under special conditions, are due to pay the sale price, buyer's premium and any other costs according to those terms. In these cases, DAVID FELDMAN S.A. keeps the relevant lots which are delivered to the buyers on full settlement of their account. Delivery of the purchased lots by post, courier or any other means if instructed by the buyer including cost of normal transit insurance cover is at the expense of the buyer. Title

or ownership of the purchased lots, delivered or not, remains with the auctioneer on behalf of the seller until payment has been made in full.

3.6 Special extended payment facility: DAVID FELDMAN S.A. may offer a special extended payment facility for buyers. In these cases, the buyer may choose to pay a minimum of 25% of the total invoice immediately, and the balance over a maximum period of 6 months, paying an equal instalment at the end of each month. Interest plus charges of 1% is debited to the buyer's account at the end of each month from the auction date. When the special extended payment facility has been granted, the buyer understands that any claims regarding his purchases must be made within 30 days of the auction sale date, even though the lots may be held by DAVID FELDMAN S.A. awaiting full settlement of the account. Until delivery, all lots may be examined by their respective buyers at the offices of DAVID FELDMAN S.A.

3.7 Pledge: until full settlement of the account, the buyer grants to DAVID FELDMAN S.A. a pledge on any and all properties held by DAVID FELDMAN S.A., acquired prior to, during and/or after any auction. This pledge secures the repayment of any amount due in principals, interests, commissions, costs and other possible fees. DAVID FELDMAN S.A. is entitled, but not obliged, to realise freely the pledge assets without further formalities and without previous notice if the buyer is in default with the payment of his debts or with the fulfilment of any other obligation hereunder. For this purpose, DAVID FELDMAN S.A. is not bound to comply with the formalities of the Federal Law dealing with actions for debt and bankruptcy proceedings; in addition, DAVID FELDMAN S.A. may choose to institute or go on with the usual proceedings without having beforehand sold the pledged goods and without having moreover given them up.

4. Guarantee

4.1 Extent of the guarantee: subject to paragraph 4.3 below, the authenticity of all philatelic items sold in the auction is guaranteed for a period of 30 days from the auction date, with the express exclusion of any other fault(s). Any reclamation regarding authenticity must come to the notice of DAVID FELDMAN S.A. on the delivery of the lots but at the latest within 30 days from that date. Before delivery, which may take place after the 30 days period, the lots purchased may be examined at the Geneva offices of DAVID FELDMAN S.A. The buyer whose reclamation is made after 30 days from the auction date loses all rights to the guarantee. Such reclamation will not be valid by DAVID FELDMAN S.A.. If an extension of the period is required in order to substantiate the claim with an expertise, a request for such extension must be made to DAVID FELDMAN S.A. within 30 days of the auction date. No request for extension will be considered beyond this 30 days period. An extension will expire 3 months after the date of the auction; the results of the expertise for which an extension was agreed must come to the notice of DAVID FELDMAN S.A. within that period. No further extension of the period will be considered without the express written agreement of DAVID FELDMAN S.A. Only claims, expertise results or other details which are made within the agreed periods will be valid.

4.2 Expertise and counter-expertise: should the authenticity of a lot be questioned, the buyer is obliged to provide an expertise or counter-expertise from a prominent expert in the field, justifying the claim. If a stamp is found by a recognised expert, taking financial responsibility for errors, to have been forged, he may mark it accordingly. Consequently,

the marking "FALSCH" (forged) is not considered an alteration. In the case of such reclamation, DAVID FELDMAN S.A. reserves the right to request, at its own discretion, one or more further expertise(s). All expertise and relative charges accrue to the vendor's account in the case of a justified claim, or to the buyer's account if the claim is not justified. In the case of a justified claim, the lot is taken back and the knock-down price plus the commission are refunded to the buyer. In the case of delayed payment due to expertise agreed by David Feldman S.A., interest is charged at 50% of the standard rate for all cleared lots. If David Feldman S.A. has not agreed, then full interest is due.

4.3 Exclusions: lots described as collections, accumulations, selections, groups and those containing duplicates cannot be the subject of any claim. Claims concerning lots described as a set or groups of sets containing more than one stamp, can only be considered under the terms of paragraph 4.1 above if they relate to more than one third of the total value of the lot. Lots which have been examined by the buyer or his agent, lots described as having defects or faults cannot be subjected to a claim regarding defects or faults. Illustrated lots cannot be subjected to a claim because of perforations, centering, margins or other factors shown in the illustrations.

4.4 Late Payment: if payment of the knock-down price plus commission due by the buyer is not made within 30 days of the date of the auction, DAVID FELDMAN S.A. reserves the right to cancel the sale and dispose of the lot(s) elsewhere and/or to make a recourse to any legal proceedings in order to obtain payment of the amounts due as well as for any incurred damages and losses and any legal expenses. A charge on overdue payment of at least 5% for the first month and 2% per month afterwards plus expenses incurred is chargeable on any outstanding amount after 30 days of the date of the auction. The buyer who is in default in any way whatsoever has no right of claim under any circumstances.

4.5 Exceptionally, the knock-down price will be reduced to the lowest winning bid where it is shown that the exact same buyer has inadvertently increased the price by using more than one medium of bidding on the same lot.

5. Applicable law and jurisdiction

Unless otherwise stated, all auctions as well as any rights and obligations arising from them shall be governed exclusively by Swiss law. Any legal action or proceeding with respect to the auctions shall be submitted to the exclusive jurisdiction of the courts of Geneva, subject to appeal to the Swiss Federal Court in Lausanne. In every case, DAVID FELDMAN S.A. shall also be entitled, at its discretion, to sue any buyer in default at his place of residence; in such case, Swiss law shall remain applicable and in the case of issues regarding price value, the Euro is converted at its Swiss franc value at the time of the auction.

6. All Transactions:

These Conditions of Sale apply to all transactions of every kind including those outside the auctions, with David Feldman SA.

Note: If these Conditions of sale are translated into one or more other languages, the English translation shall be the official version and shall prevail over all other translations.

Keep your collection alive

The digital solution: Museum of Philately

A modern presentation of collectors, their collections and their rarities via the latest internet technologies

Through our auctions, which have spanned for over forty years, we have presided over the dispersal of hundreds of Grand Prix and Large Gold Medal collections, formed by collectors with the passion and resources to pursue their chosen fields over decades or even a lifetime. Thus, the idea was spawned to create deluxe publications and an on-line museum as additional services to eternalise a prized collection, allowing it to live on once it has been sold, thereby preserving it for future generations.

By consigning a Grand Prix or a Large Gold Medal collection with us, make yourself eligible to participate in both the Great Philatelic Collections programme and the Museum of Philately digital application. These tools will allow you to immortalise your collection and, ultimately, to share your achievements in the world of philately with your loved ones and with the rest of the world.
