Introduction

Marcus Orsi
Chief Philatelist

Dear Collectors and Friends,

We are holding our traditional Autumn auction series scheduled for November 28 through to December 3, 2016, comprising seven different catalogues. Please consult our web site to view or download all catalogues at www.davidfeldman.com.

We would like to heartily thank our many hundreds of consignors from all parts of the world who have entrusted us with their collections, recognising our company's ability to present their stamps and postal history in the best way to an extensive and knowledgeable collecting public. Indeed, needless to say that without the trust and continued appetite of our passionate and active collector-clients, this sale would also not be possible.

This catalogue highlights major sections of Austria, with early issues used in Hungary and later archival material; Egypt, with over 600 lots from the early postal history, through to the later proofs and essays; Romania, showing a life time accumulation of the early issues, and Russia, all presented in over 4000 lots. Other notable highlights are a fine section of Italy and States, early Ottoman Empire postal history particularly in Albania, Bulgaria, Syria, Lebanon and Palestine, plus one-country collections and general all world collections throughout.

Our clients have come to know and value our All World collection section with many fresh lots housed in hundreds of albums and boxes. Our latest offering continues this tradition with an exceptional selection of country collections, mixed lots and general collections originating mostly from estates. Indeed, practically all of the following material has not been on the market for an average of over twenty years which will, no doubt, add to its attractiveness for potential buyers.

It is therefore our pleasure to welcome you to Geneva, where the viewing of both small and large lots takes place from November 28th, and before that date by appointment. If you are planning to visit us, please inform us of your travel plans, and do not hesitate to ask should you need some assistance in the form of hotel reservations or other information. Frequent visitors to our auctions are quick to appreciate the extensive flight network of low-cost airlines offered by the nearby Geneva International Airport and the convenient proximity of the A1 motorway, located only a few minutes away. Should you not be able to view the lots at our offices, please consider that most of them, including numerous collections, are also completely scanned and available for viewing via our website www.davidfeldman.com.

Bidding in our auctions can be made in writing via the enclosed bid form, live via Internet in the comfort of your home or office, by telephone, or indeed through an independent auction agent. Should you have any questions concerning the material presented, our conditions of sale, or any other matter, please do not hesitate to contact us - we are at your service. We wish you success with your bids and satisfaction with your purchases.

EXTREMELY IMPORTANT FIRST ISSUE THREE COLOUR FRANKING

30111

3+4b+6(x3)

40'000

1859 (Sep 26) Complete folded letter (in English) from an English merchant in Bogota to his brother in HAMBURG, with 5c and 20c tied together on face by "9." hs, with pair of 20c plus 10c tied together on reverse by same, sent via the English mail with British P.O. Cartagena bs (dated OCT 10 / 1859) and London transit (Nov.1) plus Hamburg Prussian mail bs (St. P.A. / 4 Nov. 59), ms "2/8" (2sh8d) rated in London plus ms "46" (schillings) in red crayon on arrival, all stamps with ample to huge margins, very fine

Nothing comparable is known for its multicolour franking and rare destination. Ex Langlais and Hackmey; it escaped the grasp of other famous collectors of Colombia such as Londono, Hubbard and Goeggel, and is in a special class all its own - a true world-class rarity.

The double weight Colombian franking (75 centavos) paid for the internal transit from Bogota via Honda to Cartagena (25 centavos) plus 50 centavos for maritime postage, and was given to the British Consul in Cartagena for onward transmission. Note small m/s "2" on reverse confirming 2nd echelon of weight. The use of the British post was necessary as Colombia did not then have a postal convention with Prussia. The "46" applied at the Prussian postal agency in Hamburg represented all charges for a double weight letter from Carthagen, incl. the British charge.

The cover was carried from Cartagena to St. Thomas by the ship "Solent" on Oct. 10 and was transferred to the "La Plata" which carried it to Southampton - both steamboats of the Royal Mail Steamship company.

One of the most important First Issue covers from anywhere in South America

1865 Medio Real and Un Real black, on laid paper, used single both from position 4, both showing small plate flaws just below the shield, good to large margins with some frame lines visible, very fine and very scarce in this quality, these are among some of the most desirables stamps from Dominican Rep and of the GREAT RARITY

Note: These stamps were originally position no.2, in the sheet of twelve. (See lot 90104 in the present Auction.) The plate was damaged prior to printing Scott #4 and converted to a sheet of ten by eliminating position 9 and 11 which were severely damaged. The 2 stamps offered here then became position 4, in the newly assembled plates of ten and are showing characteristic strong damages and retouching of the shield and a plate scratches at lower left

Please note: Variety of small thin second "R" of CORREOS was first reported in the magazine AJP (American Journal of Philately) dated 15 of May 1904. It appears that the vast majority of this variety, comes from Position # 21, Setting V. This information was lost and has only recently been re-discovered, due to the consulting of an extensive private library, consecrated to the Dominican Republic stamps, errors and varieties.

David Feldman is proud to bring this information back, to the knowledge of the students of the Dominican Republic philately.

Please note: From 1866 to 1881 Great Britain had two Post Offices opened in the Dominican Republic, with a brief 2 years interruption in 1870-1871. Obliterator C86 corresponded to Porto Plata and the C87 to Santo Domingo. Both are very scarce. The C86 is known in RED over the Dominican Rep. stamps and in BLACK over the British stamps. C87 is known in RED and BLACK over the British stamps but NOT over the Dominican stamps. Cancellations C86 in BLACK over Dominican stamps are of great rarity.

**BRITISH OCCUPATION OF IRAQ
ON ACTIVE SERVICE COVER TO WALES
in NOVEMBER 1921**

A cover marked "On Active Service" from a RAF Personnel named R.Saunders of No.1 Squadron in BAGHDAD sent to Wales.

The cover is signed in full by the sender with a circular strike of M199 and a "B.E.F.M.A.P.O.BMR 25." It paid the high rate of 6annas and canceled with a bilingual "LOWER BAGHDAD" on 20th November 1921.

Air Mail Cover to England on 23rd June 1923

Showing a LATE usage of the Occupation Overprinted Stamps with the WIDE settings of the overprint on the 8th anna stamp and the Very RARE error of "Q" for a broken "Q" on the 1/2anna stamp

An Air Mail cover sent from BAGHDAD to ENGLAND via CAIRO showing a repeated hand strike in violet and English of "BY AIR SERVICE"

It overpaid 10 annas (For Philatelic Reasons?) with an 8 annas stamp showing the WIDE setting of the overprint while the block of the 1/2 anna stamps shows one with the very rare error of "Q" for the "Q" in IRAQ.

The date of the cancel of 23rd June is just within the validity of the grace period for the use of the occupation stamps since the release of the new stamps of Iraq was on May 1st.

The cover appears to have been received on July 4th

The British Occupation of IRAQ

An Overpaid Registered Philatelic Cover Sent From the Director of Postal Services, Iraq on 21st June, 1919 to Switzerland

It Shows a Very Curious Hand Strike of the STAR of DAVID in Violet

A beautiful looking REGISTERED cover sent from Baghdad to BASLE, Switzerland, probably philatelic. It shows the much inflated payment of 500 Rupees with 50 #13 canceled by the small circular all English registration cancel of Baghdad dated the 21st June 1919.

This date probably is of philatelic significance since other identical covers with different frankings have been reported in (CPAL).

The cover is sent from the Director of Postal Services, Iraq. There is a curious six pointed star of David hand stamped in violet of unknown significance.

The back shows an arrival strike of Basle dated 24th July 1919. This would indicate that it took 33 days to arrive!

Iranian Philately
August 14th, 1915 The Kings & Historical Buildings

Jon Enschede en Zonen (Holland) printed these stamps in sheet of 25 on white paper with Golden border. On August 4th, 1915, one hundred sheets consisted of 2500 stamps of each denomination. Were delivered to Tehran and 5273 Dutch Gulden were paid. However, the outbreak of World War I curtailed the production of the remainder and therefore the Postal Authorities did not issue these stamps. The Shahi values showing the portraits of the Kings and the Kyan Values showing the historical buildings.

Two sets of regular postage and official usage were made.

All the stamps with golden border and the stamps intended for service use are all with black signature. With "SERVICE" overprinted in red. In 1940 by the order of the Iranian Ministry of Post and Telegraph. A total number 90,000 stamps of this issue were destroyed which apparently only leaves a total of 3000 stamps in existence or around 138 complete sets.

Iranian Philately
August 14th, 1915 The Kings & Historical Buildings

Jon Enschede en Zonen of Haarlem (Holland) printed these stamps in sheet of 25 on white paper with Golden border. On August 4th, 1915, one hundred sheets consisted of 2500 stamps of each denomination. Were delivered to Tehran and 5273 Dutch Gulden were paid. However, the outbreak of World War I curtailed the production of the remainder and therefore the Postal Authorities did not issue these stamps. The Shahi values showing the portraits of the Kings and the Kyan Values showing the historical buildings.

Two sets of regular postage and official usage were made.

All the stamps with golden border and the stamps intended for service use are all with black signature. With "SERVICE" overprinted in red. In 1940 by the order of the Iranian Ministry of Post and Telegraph. A total number 90,000 stamps of this issue were destroyed which apparently only leaves a total of 3000 stamps in existence or around 138 complete sets.

THE FAMOUS INVERTED ELECTRICAL AUTOMOBILE

30523	(*) 1901 4c Pan-American, Center Inverted (296a), unused with usual disturbed original gum, rich colours, good perfs., a fine to very fine example of THE 4-CENT PAN-AMERICAN INVERT, cert. PSE (2007) (Sc. \$ 75'000) The 4c Pan-American Invert was a special printing and not regularly issued. Examples were distributed through two official channels, and the gum on the majority of stamps without "Specimen" overprint was disturbed. In fact, because 97 of the stamps were removed from an album page, they are generally thinned or have seriously disturbed gum.	296a	20'000

Note: the absence of any US postal charge is peculiar to this single sailing, when the B&ASN Co waived all charges on letters accepted for the return journey. EGYPTIAN BOOKLETS

1888 De La Rue Issue

Front and back booklet covers

Used booklet stamps

1903 5 millième booklet

Unused pane of six

Piece with three booklet stamps

Egypt was one of the first countries to adopt the sale of stamps in booklets. In July 1902, correspondence began with De La Rue & Co. about the production of 5m. stamp booklets. The booklets were made up of four panes of six stamps each and were sold for 121m., 1m. more than the face value of the stamps. The booklet panes were cut from ordinary panes of 60 of the 5m. stamp with selvage at the top. The 5m. booklet was put on sale to the public on 1 January, 1903. Intact booklets are rare and even full panes of six are quite scarce.
