Introduction

Dear Collector and Client,

It gives us great pleasure to present to you this specialised catalogue of Olympic Games and Football with over 600 lots of philately and memorabilia.

The auction features many important and unique items of Olympic philately, especially the essays and proofs from 1906 Athens, 1924 Paris, 1932 Los Angeles and the cancelled games of 1940 Helsinki. This is an opportunity not to be missed for specialists to add these items to their collections with many of these showpieces not appearing on the market in at least a generation.

The auction also features a wealth of Olympic stamp usages, varieties, cancellations, postcards, medals, paper memorabilia and ephemera, so we trust that collectors of all means and specialisations will be able to find something to add to their collections. Please feel free to contact us to ask for condition reports, extra scans or even advice on enhancing your collection; our specialists are on hand to answer your emails and phone calls. We wish you success with your bids and satisfaction with your purchases.

Finally, we'd like to thank our many vendors for showing their trust in us to present their items and collections in the best way possible. We strive to maximise the potential of their lifetimes' work through our skills in research, lotting, describing and estimating by producing a catalogue worthy of displaying their philatelic treasures in their best possible light.

Note: In order to prevent these stamps from being used in Greece to the detriment of the revenue during the 1897-98 Greco-Turkish War, orders were issued that all stamps still in the hands of the Greek Government should be overprinted with a special Treasury cachet to mark their validity. The cachet was normally applied to overprint four small stamps or two large ones. Later, in order to avoid confusion with used stamps, the cachet was applied to the backs of the stamps.

Preface to the Cancelled 1940 Games in Helsinki and the Stamp Essays

The cancelled Games of 1940 is a fascinating part of the history of the Olympics; little of which, if any of the story in fact, is known to non-Olympic enthusiasts.

Helsinki had first announced its interest in organising the 1940 Olympic Games at the 1930 Olympic Congress in Berlin. The campaign to choose a city for 1940 began in earnest in 1932, with Barcelona, Rome, Helsinki, and Tokyo participating. In 1936, Tokyo was chosen in a surprise move, making it the first non-Western city to win an Olympic bid.

When the Second Sino-Japanese War broke out between Japan and China on July 7th 1937, Japan's IOC delegates persisted with preparations for the Games under the belief that the war would soon be over. Even in March 1938, the Japanese provided reassurances to the IOC Session in Cairo that Tokyo would still be able to serve as the host city. Finally they announced the forfeiture of the Games on July 16th 1938. Only four days later, Finland declared themselves ready to take over and the Summer Games were awarded to Helsinki.

Even before they were named as hosts, a new Olympic stadium had been built, and now construction work began on the other venues such as the swimming stadium, velodrome and Olympic Village. In order to raise funds for this, the Organising Committee intended to issue special postage stamps, modelled on the denominations used for the Games in Berlin when Olympic stamps with surcharges had first appeared on a large scale.

At the start of 1939 the Helsinki Municipality announced a competition to run from 20th April to 16th June 1939. Although the theme of the stamps was open to interpretation by each artist, the rules required that the design express the Olympic Ideal while incorporating the following elements:

1. The words "Suomi" (the Finnish name for Finland) and "Finland" (the Swedish name for Finland)
2. The Olympic Rings
3. The year 1940
4. The postage value, including surcharge, for each stamp.

Ten artists handed in no less than 103 designs, to be judged by a six-member commission. It comprised representatives of the Finnish designer and philatelist association and they chose ten proposals, which were then passed on to the postal administration even before the commission had established a final ranking.

The postal administration favoured the artist Signe Hammersten-Jansson, with whom they had worked for a long time, and had printed numerous colour proofs from her works (she designed no fewer than 173 postage stamps). They even went further by printing three collective proofs of her Olympic designs in black, blue and brown. However the jury only gave her a consolation prize, awarding 1st place and 5000 Finnmarks to Gustaf Adolf Jysky instead (who later designed one of the 1952 Olympic stamps). The prize of 4000 Finnmarks went to the designer Veli Tapio Wirkkala (who designed two of the 1952 Olympic stamps) and the 2500 Finnmark prize was shared between brothers Eino Rafael Rapp, Aarne Alexander Rapp and competition winner Jysky.

Unfortunately many of the designs are by unknown artists. A great deal of information and material has been lost, but fortunately the city administration of Helsinki at one stage gave the caretaker permission to keep the competition documentation when they were moved as it was regarded as superfluous. This material was then sold at auction in the 1990s, some of which has now come back on the market here for the first time since.

Despite the Second World War, preparations in Helsinki initially proceeded according to plan. After the victory over Poland, Hitler briefly allowed the rest of Europe a short respite, but Stalin extended his sphere of control by annexing the Baltic States and invading Finland on 30th November 1939, who held out until March 1940. Only when the German troops marched into Denmark and Norway did the Helsinki Organising Committee on 23rd April 1940 draw a final line under their withdrawal. IOC President Count Henri de Baillet-Latour officially cancelled the Games of the XIIth Olympiad on 2nd May.

Keep your collection alive

The digital solution: Museum of Philately

A modern presentation of collectors, their collections and their rarities via the latest internet technologies

Through our auctions, which have spanned over fifty years, we have presided over the dispersal of hundreds of Grand Prix and Large Gold medal collections, formed by collectors with the passion and resources to pursue their chosen fields over decades or almost entire lifetimes. To complement the best collections, we have for many years published a series of traditional deluxe hard-back publications called the Great Philatelic Collections. To bring these collections into the 21st century, we created the online Museum of Philately. The Museum allows us to host many more collections via its website and dedicated Apps (both Apple and Google), and uses modern presentation technology to showcase the collections and their collectors, in a manner not possible by print.

Consigned collections from clients owning Grand Prix or Large Gold Medal exhibits are automatically added to the museum; these clients can also request a traditional printed publication.

The Museum of Philately allows you to eternalise your collection, and to share your philatelic achievements with friends and family, but also the rest of the world. Please contact us to have your prized collection added to the Museum.

Conditions of Sale

The currency of the auction is the Euro (€)

Participation in any David Feldman S.A. auction means acceptance in full of the following conditions as well as any rights and obligations arising therefrom. These same conditions also apply to all transactions taking place outside the realm of the auctions. DAVID FELDMAN S.A., organiser of the auctions, acts as an agent only and is not liable in any way whatsoever for any default(s) of purchaser(s) and/or vendor(s).

1. The auction lots are offered

1.1. As presented in the relative auction catalogue and/or through the David Feldman S.A. website. Lots are meticulously described and with the greatest care, however without responsibility. Photographs count as part of the description with regard to the margins, perforation, centering, postmarks and all other visible attributes. The descriptions of the lots mention if the items are signed by recognised experts and/or accompanied by expert certificates.

1.2. As viewed in person: before and during auction sales, persons or their agents may examine lots at our offices or at the auction location, and must confirm their auction invitation before viewing. Persons or their agents attending a Live Room auction by invitation and/or who have viewed lots before an auction are understood to have examined all lots which they purchase and accept them as they are at the moment of the knocking-down and not necessarily as described.

2. Auction bids

2.1. The auction bid steps for all auctions are as follows: (some auctions may be in other currencies than Euros)

| | | | |
|------------------|-------|---------------------|---------|
| € 50 - 100: | € 5 | € 2'000 - 5'000: | € 200 |
| € 100 - 200: | € 10 | € 5'000 - 10'000: | € 500 |
| € 200 - 500: | € 20 | € 10'000 - 20'000: | € 1'000 |
| € 500 - 1'000: | € 50 | € 20'000 - 50'000: | € 2'000 |
| € 1'000 - 2'000: | € 100 | € 50'000 - 100'000: | € 5'000 |

Bids between these steps will be adjusted accordingly to the next highest bid step. The bidder is bound by his offer until a higher bid has been validly accepted.

2.2. DAVID FELDMAN S.A. has full discretion to refuse any bidding, to divide any lot or lots, to combine any two or more lots and to withdraw any lot or lots from the sale without in any case giving any reason. DAVID FELDMAN S.A. may also bid on behalf of vendors in cases where reserve prices have been fixed. In these cases, the vendor is treated as a buyer and the auctioneer shall bid on his behalf up to reserve prices. If the reserve price fixed by the vendor is not reached, the auctioneer passes to the next lot by a simple knock of the hammer.

2.3. Bid orders are only accepted from registered clients of DAVID FELDMAN S.A. and/or its associated companies. Live Room bidders must confirm their invitation prior to obtaining a bidding number.

2.4. Bid orders received by DAVID FELDMAN S.A. including via its website before the relative auctions have priority over room bids in the case of Live Room auctions. Clients giving bidding instructions to DAVID FELDMAN S.A. may make alternative offers and/or limit the total of their expenditure in advance. Bids marked «BUY» are considered as up to ten times the quoted estimate price where such exists. Bids made in other currencies than the advertised currency of the auction will be converted into that

currency at the market rate of the day of receipt by DAVID FELDMAN S.A. Bids are standing and hold good for at least 60 days from the auction period. DAVID FELDMAN S.A. reserves the right to invoice bidders up to the end of the 60 day period, payment being due immediately.

3. The auction

3.1. Unless explicitly stated otherwise, the currency of the auction is Euros. Attendance at the Live Room auction is reserved for invited clients and/or their agents.

3.2. Prerogatives of David Feldman S.A.: DAVID FELDMAN S.A. may withdraw, group differently, divide or refuse to knock down any lot. DAVID FELDMAN S.A. reserves the right to refuse any bid orders and/or for Live Room auctions, refuse admittance to the auction room, at its discretion, to anybody whomsoever. DAVID FELDMAN S.A. cannot be held responsible for any physical accident that may occur on the premises where auctions take place. In the case a bone fide offer for the entire collection presented in this catalog is received at least two weeks before the auction date, and would be accepted by the vendor and the auctioneer, it may be withdrawn from sale and the auction offer cancelled.

3.3. Bidders' representatives and auction agents: any person bidding for the account of a third party is fully liable for any obligation arising from such bidding. This responsibility is notably applicable for the verification of the condition and for the payment of purchased lots.

3.4. Winning Bids: each lot is sold on behalf of the respective owner to the highest bidder who becomes the buyer at one bid step over the next highest bid step; this is the knock-down price. A buyer's premium will be added to the knock-down price per lot and is payable by the buyer as part of the total purchase price. The buyer's premium is 22% of the knock-down price; cost of postage will be invoiced separately from the buyer's premium. On the knock of the hammer, liability for the lots passes to the bidder whose bids have been accepted. The lots are delivered to the buyer when the total sale price (knock-down price plus all fees) have been paid in full.

VAT (Sales Tax) - Notes for guidance concerning auctions for which the lots are located in Switzerland: buyers domiciled abroad are not liable for this tax once the goods are duly exported from Switzerland. DAVID FELDMAN S.A. are pleased to arrange this export; alternatively, clients may make their own arrangements and furnish DAVID FELDMAN S.A. with proof of export, stamped by Swiss customs. Any purchases by buyers who wish to keep their purchases in Switzerland will be liable to VAT at 7.7% of the purchase price. It is the buyer's responsibility to pay any relevant duties that may be incurred upon import to other jurisdictions; the buyer shall be responsible for all costs of purchases that are returned to DAVID FELDMAN S.A. should they refuse to pay import duty.

3.5. Payment: Sale price plus buyer's premium and additional costs (if any) are due for immediate payment as invoiced against delivery of the lots. Payment in other currencies is accepted at the rates of exchange of the day as quoted by a major Swiss bank. The bidders who are successful with whom it has been expressly agreed that they pay after the sale under special conditions, are due to pay the sale price, buyer's premium and any other costs according to those terms. In these cases, DAVID FELDMAN S.A. keeps the relevant lots which are delivered to the buyers on full settlement of their account. Delivery of the purchased lots by post, courier or any other means if instructed by the buyer including cost of normal transit insurance cover is at the expense of the buyer.

Title or ownership of the purchased lots, delivered or not, remains with the auctioneer on behalf of the seller until payment has been made in full.

3.6. Special extended payment facility: upon request **prior to the auction**, DAVID FELDMAN S.A. may offer a special extended payment facility for buyers. In these cases, the buyer must pay a minimum of 25% of the total invoice immediately, and the balance over a maximum period of 4 months, paying an equal instalment at the end of each month. Interest charges of 2% of the remaining balance are debited to the buyer's account at the end of each month from the auction date. When the special extended payment facility has been granted, the buyer understands that any claims regarding his purchases must be made within 30 days of the auction sale date, even though the lots may be held by DAVID FELDMAN S.A. awaiting full settlement of the account. Until delivery, all lots may be examined by their respective buyers at the offices of DAVID FELDMAN S.A.

3.7. Pledge: until full settlement of the account, the buyer grants to DAVID FELDMAN S.A. a pledge on any and all properties held by DAVID FELDMAN S.A., acquired prior to, during and/or after any auction. This pledge secures the repayment of any amount due in principals, interests, commissions, costs and other possible fees. DAVID FELDMAN S.A. is entitled, but not obliged, to realise freely the pledge assets without further formalities and without previous notice if the buyer is in default with the payment of his debts or with the fulfilment of any other obligation hereunder. For this purpose, DAVID FELDMAN S.A. is not bound to comply with the formalities of the Federal Law dealing with actions for debt and bankruptcy proceedings; in addition, DAVID FELDMAN S.A. may choose to institute or go on with the usual proceedings without having beforehand sold the pledged goods and without having moreover given them up.

4. Guarantee

4.1. Extent of the guarantee: subject to paragraph 4.3 below, the authenticity of all philatelic items sold in the auction is guaranteed for a period of 30 days from the auction date, with the express exclusion of any other fault(s). Any reclamation regarding authenticity must come to the notice of DAVID FELDMAN S.A. on the delivery of the lots but at the latest within 30 days from that date. Before delivery, which may take place after the 30 days period, the lots purchased may be examined at the Geneva offices of DAVID FELDMAN S.A. The buyer whose reclamation is made after 30 days from the auction date loses all rights to the guarantee. Such reclamation will not be valid by DAVID FELDMAN S.A.. If an extension of the period is required in order to substantiate the claim with an expertise, a request for such extension must be made to DAVID FELDMAN S.A. within 30 days of the auction date. No request for extension will be considered beyond this 30 days period. An extension will expire 3 months after the date of the auction; the results of the expertise for which an extension was agreed must come to the notice of DAVID FELDMAN S.A. within that period. No further extension of the period will be considered without the express written agreement of DAVID FELDMAN S.A. Only claims, expertise results or other details which are made within the agreed periods will be valid.

4.2. Expertise and counter-expertise: should the authenticity of a lot be questioned, the buyer is obliged to provide an expertise or counter-expertise from a prominent expert in the field, justifying the claim. If a stamp is found by a recognised expert, taking financial responsibility for errors, to have been forged, he may mark it accordingly. Consequently,

the marking «FALSCH» (forged) is not considered an alteration. In the case of such reclamation, DAVID FELDMAN S.A. reserves the right to request, at its own discretion, one or more further expertise(s). All expertise and relative charges accrue to the vendor's account in the case of a justified claim, or to the buyer's account if the claim is not justified. In the case of a justified claim, the lot is taken back and the knock-down price plus the commission are refunded to the buyer. In the case of delayed payment due to expertise agreed by David Feldman S.A., interest is charged at 50% of the standard rate for all cleared lots. If David Feldman S.A. has not agreed, then full interest is due.

4.3. Exclusions: lots described as collections, accumulations, selections, groups and those containing duplicates cannot be the subject of any claim. Claims concerning lots described as a set or groups of sets containing more than one stamp, can only be considered under the terms of paragraph 4.1 above if they relate to more than one third of the total value of the lot. Lots which have been examined by the buyer or his agent, lots described as having defects or faults cannot be subjected to a claim regarding defects or faults. Illustrated lots cannot be subjected to a claim because of perforations, centering, margins or other factors shown in the illustrations.

4.4. Late Payment: if payment of the knock-down price plus commission due by the buyer is not made within 30 days of the date of the auction, DAVID FELDMAN S.A. reserves the right to cancel the sale and dispose of the lot(s) elsewhere and/or to make a recourse to any legal proceedings in order to obtain payment of the amounts due as well as for any incurred damages and losses and any legal expenses. A charge on overdue payment of 5% for the first month and 2% per month afterwards plus expenses incurred is chargeable on any outstanding amount after 30 days of the date of the auction. The buyer who is in default in any way whatsoever has no right of claim under any circumstances.

4.5. Exceptionally, the knock-down price will be reduced to the lowest winning bid where it is shown that the exact same buyer has inadvertently increased the price by using more than one medium of bidding on the same lot.

5. Applicable law and jurisdiction

Unless otherwise stated, all auctions as well as any rights and obligations arising from them shall be governed exclusively by Swiss law. Any legal action or proceeding with respect to the auctions shall be submitted to the exclusive jurisdiction of the courts of Geneva, subject to appeal to the Swiss Federal Court in Lausanne. In every case, DAVID FELDMAN S.A. shall also be entitled, at its discretion, to sue any buyer in default at his place of residence; in such case, Swiss law shall remain applicable and in the case of issues regarding price value, the Euro is converted at its Swiss Francs value at the time of the auction.

6. All Transactions

These Conditions of Sale apply to all transactions of every kind including those outside the auctions, with David Feldman SA.

Note: If these Conditions of sale are translated into one or more other languages, the English translation shall be the official version and shall prevail over all other translations.
