DANUBE STEAM NAVIGATION COMPANY.

The Donau Dampschiffart Gesellschaft.

A private company which carried mail and cargo along the river Danube, serving all countries bordering the river and the coast of the Black Sea to Odessa. The service through Rumania closed in 1873 and in 1880 closed in Bulgaria, Serbia and Odessa.

In 1829 two British ship-builders started trading between towns on the River Danube. Their company, in 1846, obtained the contract giving them exclusive rights to trade from Austria to the mouth of the Danube in Rumania.
