32 mainly Apr 14 Margin 1844 cancels, genuinely unplated lot. As well as the plating interest we notice some useful shades, possible varieties and postmarks, so well worth closer inspection

£200

F1953

Very useful lot of 36 Maltese Cross, totally unplated, numerous Shades & Distinctive Crosses adds to obvious plating possibilities. About 75% perfect 4M. Super lot should reward closer study.

£425

F1952

Neat album page of 20 4 Margin **Maltese Cross**. Good plating possibilities enhance its value.  
Approximately 65% appear perfect. Genuinely unplated lot, becoming harder to find

£190

F1951

Neat album page of 20 4 Margin **Maltese Cross**, some interesting cancels, as well as useful possibilities for plating. Approx 70% appear perfect. Becoming difficult to find genuinely unplated.

£200

F2223

Stock sheet of 28 apparently handpicked Imperfs, mostly 4 margin and nearly all perfect, any faults noticed being very minor. Mixture of Alpha 1 and 2 with some interesting characteristics noted (possible recut R). Several different shades and useful postmarks make this a well worthwhile lot to plate. NORMAL PRICE £170

F115

PLATE  
XI

F1199

Unplated part reconstruction of 228 1d Red Imperfs being mixed Alpha I & II incl MX. As usual condition ranges from poor (small number) to fine. Mostly 3 to 4 M with about 60 to 65 perfect 4 margin. As well as postmarks we have noticed a nice Plate 11, 2 attractive Blue numerals, 68 & 706 plus a really good Ivory Head. Well worth improving on or plating.

£375

L17

attractive lot of 1d Red Imperfs all with Maltese Cross cancels consisting of 230  
 s which appear virtually totally unplated, which is highly unusual. I noted only a few  
 plates numbers and they were Plates 2, 3 copies attributed as Plate 11 and a Plate 18.  
 rest are very platable copies, some 4 margin with mainly 3 margin or better and, as  
 unplated appear unchecked for distinctive cancels. I noted at least 2 number  
 as well as obvious distinctive Crosses such as Dublin etc. Looks a genuine  
 lot of plates from 2 to 40? plus.

catalogued a colossal £9,200 plus and an ideal opportunity at

£600

Part Reconstructed Sheet of 1d Red Imperfs largely Alpha 1. Very good looking 156 different letterings. Virtually all 3-4 margin with something like 60% of 4 margin perfect. Any faults seem to be very small and many of the stamps appear to have been plated by Ken Statham. This makes an extremely attractive reconstruction for both the experienced and inexperienced plater.

£700

# PART RECONSTRUCTED SHEET OF 1D RED IMPERFS largely ALPHA 1

A very good looking partial reconstruction of 156 all different letterings virtually all 3/4 Margin with something like 60% of 4 M. perfect Any faults seem to be very small and many stamps appear to have been plated by Ken Statham. This makes an extremely

attractive  
reconstruction for  
both the  
experienced and  
inexperienced  
plater.

£225

# 100 x UNPLATED 1P RED IMPERFS 1844 CANCELS

from the original 64 page stockbook of completely unplated/unsorted 1P REDS. MIXED ALPHA's largely 3/4 margin with just over 35% being 4 margin  
MARGIN PERFECT

£275

L20

A very interesting collection of approx 131 1d Red Imperf Alpha 1 and 2. Each Alphabet set out in letterings format on black Hagner pages making it very easy to see the quality of the stamps. They are mostly 4 margin or better, some have faults, but I felt nearly 100 are much better examples. Of these assigned to Alpha 1 (98) I found 75 and Alpha 2 (30) 22. Some extras include 2 Blue cancels and a Plate 59 JH R/E and a stamp with double letters in **both** corners. Whilst these do have faults they are still nice representative examples. The majority of these stamps have been plated and if accurately (as we suspect they are) they include some very good plates with a good spread mainly through the range 41 to 173. I expect many of the perfect stamps to command a price in the region of £10 plus. This is a particularly good lot for anyone trying their hand at this period and wanting to gain some experience. They would also form a good basis for a set of individual Plates.
