This is a bogus or fraudulent cancellation which in my view was created by an enterprising merchant to produce souvenir items for soldiers in the French occupying forces.

All known examples are dated 4-12-08

The Casablanca Fair of 1915 (also known as the 1915 Casablanca Franco-Moroccan Fair or Exposition Franco-Marocaine) was a commercial exposition held by the French authorities at Casablanca in the protectorate of Morocco from 5 September to 5 November 1915. It was intended to encourage better economic ties between France and Morocco and as a demonstration of French power in the region. Goods from across Morocco were displayed at the fair and allowed French scholars to assess the state of the craft industry in Morocco. Their findings resulted in the establishment of training centres for Moroccan craftsmen in an attempt to encourage the industry.

The publisher of this undivided back double postcard was  
"Gaston Fouyssat" who is known to have produced a number of postcards of Morocco.  
In the 1930's the nature of their business changed with  
a Limited Liability Company being formed as a transport firm.
