

When the time came to issue new stamps in 1923 for the issue with the head of King George V on, supplies of the white paper watermarked Mult Crown CA had been exhausted and those values printed on the white paper used the new Mult Script CA paper. However, there were still supplies of the various coloured papers in stock and these had to be used before the new Script paper could be used. The values so effected were the 3d, 1s, 2s.6d and the 5s.
