"Bahnhof-Briefkasten Stempel"

"Station-Postbox Postmarks"

At the turn of century there were Special boxed cancellers of various sizes introduced, for mail collected from Station Letter-Boxes (not to be confused with "Bahnhof" cancellations from station-Postoffices)
They were all box-shape with cut-off corners (see below) with town-names, date, later with code letters, astrids etc
The service was that an official after collecting the contents of these special post-boxes obliterated and handed the mail to post-carrying trains. As it became more and more the habit - mostly due to shortage of time - that the official passed the mail on without affixing the special postmark these cancellers were withdrawn.

At the moment it is not exactly known how many of these special box-cancellers are still in use and it seems rather difficult for collectors to obtain them.
