L.O. 232.

INSTRUCTIONS to Maistrí Poist, Messengers, and Mail Cart Drivers, for Working the Mail Bag Apparatus.

---

1. All Bags exchanged by Apparatus should be of the size No. 8, *i.e.*, 3 feet 6 inches by 2 feet 4 inches.

2. The Bags should be tied "loosely," *i.e.*, so that the contents may not occupy more than two-thirds of the space of the Bag enclosed by the tie.

3. No person should attempt to work the Apparatus until he has been fully instructed by one of the Overseers, Mail Bag Apparatus, and a second Messenger should therefore be instructed in order that he may be able to take the place of the regular Messenger in case of leave or sick absence.

4. If at any time it is absolutely unavoidable to employ a Messenger who has not been duly instructed by one of the Overseers, Mail Bag Apparatus, the circumstances should be reported at once to An Ceannasai Pch.B.

5. No unauthorised person should be allowed to work the Apparatus or to meddle with the Machinery in any way.

6. In making up a Pouch, see that the Mail Bags are completely covered by the leather envelope, and that no part of a Mail Bag is exposed.

7. The Pouch should be packed in such a way that, when suspended, it will hang as nearly as possible plumb; the small cross-straps should invariably be buckled, and the main strap passed through 3 of the 5 loops, and round the Pouch once only before being buckled; the remaining portion should be carefully tucked in. The Pouch should be carefully and tighly made up so as to prevent the contents shifting at the moment of Transfer, but at the same time the straps of the Pouch should not be tightened so excessively as to damage the correspondence.

8. If the springs are weak, or a strong wind blowing, a piece of string should be tied *once round* the jaws of the pin box and fastened with a reef knot.
