Overprint with Shiny Blue-Black Ink

Panes recorded with Dull Black Ink, which were experimental printings by Thom.

STAMP VARIETIES

Reference	Stamp Variety Description
C1	Stamp printed on 'Howard' ribbed paper Plate 1/2L
C2	Re-entry to '5' and stroke of '/' Plate 1/2L Stamp from R6/3
C3	Stamp printed on 'Howard' ribbed paper and re-entry to '5' and stroke of '/' Plate 1/2L Stamp from R6/3

Varieties as found with overprinted stamps T13 & T40 from printer's plate 1/2 left pane.

(C) IRISH FREE STATE OVERPRINT BY THOM

OVERPRINT VARIETIES

Thom used a 4 x 5 stereo setting, which required two press passes to overprint a pane of 40 stamps. This process results in varieties due to stereo faults occurring in Rows 1 to 5, being replicated in the same relative positions in Rows 6 to 10.

Reference	Overprint Variety Description
Varieties found with stamps with Complete Visor (CV) and Broken Visor (BV)	
C4	Accent missing over 'A' of 'SAORSTÁT' Stamps from R3/2 and R8/2
