Mr.Joseph J.Gabry
Harvery Ills.

Expertization 31 French Colonials

Dear Mr.Gabry:

Please be advised that I have examined the enclosed French Colonial 19th Century Peace and Commerce type stamps.My findings are as follows:

Method-10 diopter magnification-Millimetre measurements-quartz process.

Color;very clever,nearly exact.

Perforations:lacking ½ Mm. on one side to correct measurements,probably due to paper shrinkage.

Paper:Exactly the same as on originals.

Watermark:Perfect where quadrille type is used.Originals had watermark quadrille on some stamps only and these follow that practise.

Comment:A thoro examination proves these to be the work of Mons.Fourneir,French forger banished to Switzerland by the Republic of France as that Countries foremost Counterfeiter.The figure on the right has no umbilicus(navel) The fruit on tray to right is trangle shaped-one the genuine it is round.Mittens appear instead of hands on both figures and the background is crude.On the originals the fingers are distinct and the background is smooth.

Recommendation:The average collector and a lot of dealers will pass this series of 31 stamps as genuine with a catalog value of nearly $45.00.It is obvious that they are dangerous and should be plainly marked 'Fake' if disposed of.

The plates are undoubted Fourneirs work.The paper and watermark material evidently stolen from French.The entire product a clever but dangerous forgery.

Respectfully submitted

Harry Weiss
