# Errors in stamp design

## PAPUA NEW GUINEA: MIXED UP NAMES

Papua New Guinea issued a set of four stamps picturing birds to mark AMERIPEX '86. By error, the Latin name of the bird on the 15-toea stamp, "Rhipidura rufifrons," appears on the 45t value, while the Latin name for the bird on the 45t stamp, "Pitta erythrogaster," was placed on the 15t value by mistake. The postal bureau sent out a correction a short time later.
