MAP OF Panama

Panama en sus manos m a n o s

Panamá : "paraíso del turismo"

La Ciudad de Panamá es puerta de aventuras, de inversiones, y, así mismo, de descanso, de deportes y de solaz. Situada en la entrada del Canal de Panamá, al que da su nombre, sirve igualmente de pórtico a las más entusiastas faenas turísticas que pudiera desear el más exigente: pesca deportiva, paseo y regata en lanchas en sus cristalinas aguas de mares limpios de amplísimas playas; ruinas históricas que enriquecen el espíritu del estudioso; centros de diversión para la gente alegre; centros de cultura para el interesado en nuestros pueblos. Hoteles modernos, con todos los adelantos y comodidades del mayor gusto, casinos y salones de bailes completan el panorama deseado.

El ambiente tropical y romántico de Panamá da sabor y color a sus paseos.

Siéntase en Panamá a su antojo, Panamá por algo es llamada "el paraíso del turismo"

P. O. Box 1072.

Manila, P. I.

August 9, 1905.

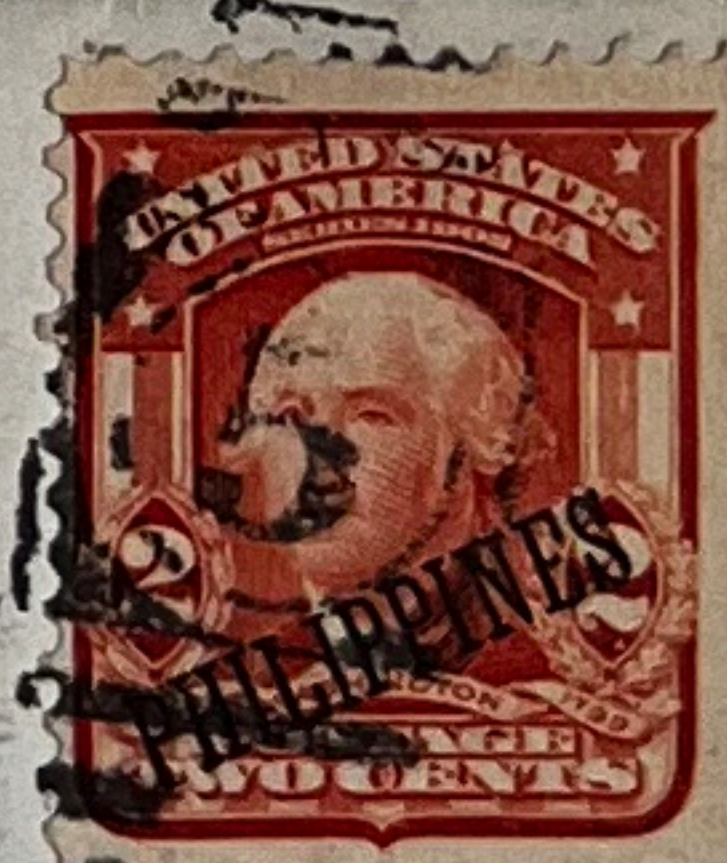

My dear Guscetti:-

I have your favor of the 31st ult., and thank you for the stamps; they were just what I wanted to finish out a couple of exchanges. The price was very satisfactory, and in exchange I return you herewith a block of 8¢ Martha Washington. I selected a block of 6, for the reason that you will note the uppright-hand stamp has the H smaller at the bottom than top (plate 1497). This is no doubt due to some accident to the type, nevertheless, it makes a sort of variety, which runs through the sheets, including a number of plates. As I am pretty well acquainted with the lady at the stamp window, I have access to her stock of stamps, and she permits me to select specimens etc., and to examine the stock.

Chas. C. De SELMS.

P. O. Box 1072.
MANILA, P. I.

Mr. Frank J. Guscetti,
Postmaster,
DAGUPAN, P. I.

I expect to start a scheme for buying in stuff pretty shortly, but on a little different plan from yours. Don't know how successful I will be, but I don't care to soak a lot of money in it anyway.

Taft and his party of rooters are here now, and we are 'having the time of our lives', as one soldier boy sarcastically expressed it. Balls, receptions and other doings are going on all the time; and of course our 'dear' Secretary Taft shoots his lurid gush in large bunches at the Filipinos, as he is wont to do.

I understand that up in your neighborhood, and about Aparri, etc., up in that direction there are a few holdings of old used Filipino stamps, making up a considerable quantity. Wouldn't be a bad idea to get after some of that stuff, would it? I should like to get in on a bunch of that stuff, used, if it is real cheap. Trusting to hear from you. Very truly,

Charles D. DeLong

P.S.- Yes, the '02 ten cent is again on sale here. There was only one sheet anywhere near nicely centered, but I did not invest in any. It has been impossible for me to get at any used stuff yet. The other batch of the \$5 will be in probably in five or six weeks. I have thought of investing in a few.

Have sent for some application blanks for Am. Phil. Assn., and hope to have them here some time this fall; could not find a single one in my papers or correspondence. Have you had any replies to your ad yet? I think a fellow will have to get after the people in a little different way; they don't seem to catch on very well that way, and then most people who would read an ad would hardly have anything worth getting. I expect to try a little different plan. I did not answer your letter more promptly, for the reason that they did not get the Martha's in stock at the window until to-day.

My camera is a No 3A Eastman Kodak. Takes 3-1/4 x 5-1/2 pictures. I notice a fellow in the Times want column offering a 5x7 Premo for sale cheap; says he returns to States on next transport. Don't know what he calls cheap, but he might be willing to take a low price for it, and it might be a bargain if in good condition. I have not gotten so that I can take a good picture yet. If you notice anything in the way of curios in your vicinity, let me know. I am figuring on a trip down to Cebu on my vacation, in order to try to get a bunch of shells.
