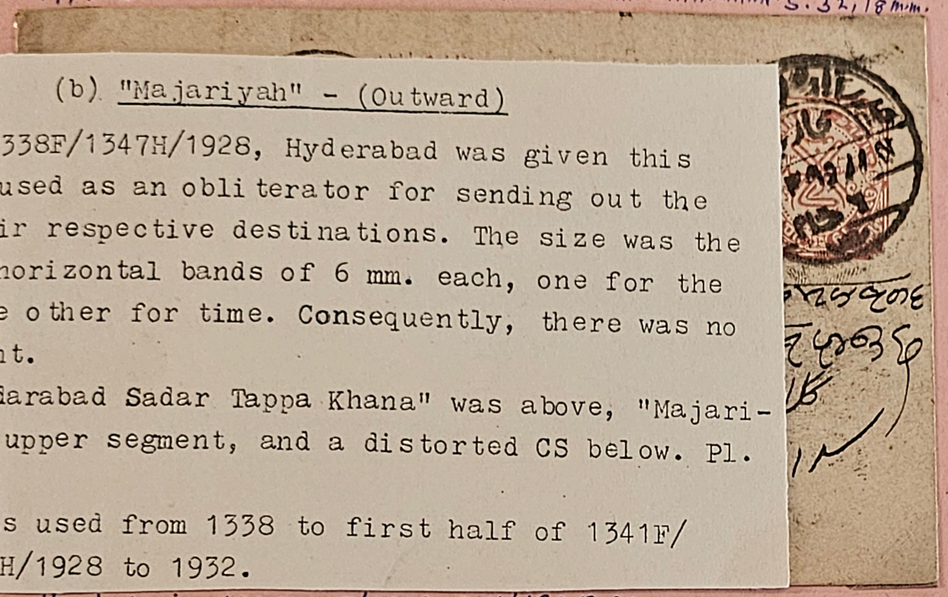
TYPE V-a. Cal: No: 30. For HAIDARABAD SADAR TAPPAKHANA. S. 32, 18 m.m.



(b) "Majariyah" - (Outward)

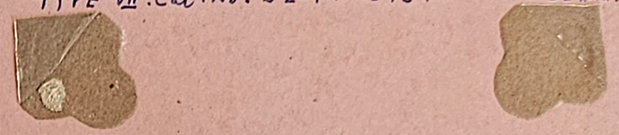
In 1338F/1347H/1928, Hyderabad was given this handstamp, used as an obliterator for sending out the mail to their respective destinations. The size was the same, with horizontal bands of 6 mm. each, one for the date and the other for time. Consequently, there was no lower segment.

"Haidarabad Sadar Tappa Khana" was above, "Majariyah" in the upper segment, and a distorted CS below. Pl. V. No. 24.

It was used from 1338 to first half of 1341F/1347 to 1350H/1928 to 1932.

Used during 1338-41F/1347-50H/1928-32. 75

TYPE VII. Cal. No: 32-1. 1345 F. S. 32 m.m.



77 → Sameeha 27.03.07

(b). "Majariyah" - Out-ward

1. In the second half of 1341F/1350H/1932, the "Majariyah" hadstamp for Hyderabad was issued in this type.

The circle was of same size. The upper segment, of 15 mm. had "Haidarabad" above, and "Sadar Tappa Khana" below. Two horizontal bands of 5½ mm. each had the date above, and time below. The lower segment of 6 mm. had "Majariyah" - Pl. XI. No. 92.

This type was in use till the middle of 1342F/1351H/1933.

2. A general type then followed. The circle was of same size, but the settings were as under.

(i). Sadar Tappa Khana was a prefix to Hyderabad from 1342 - 1346F/1351-1355H/1933-1937, with a new die from 1354F/1363H/1944.

80

3. (c). "Taqsim" - Delivery.

The delivery handstamps were introduced with the change of calendar, but the delivery Nos. 1 to 4 were incorporated in 1310F/1319H/1901.

1. The circle was of 25 mm. diameter, with the year on top, "Taqsim" with number, Hyderabad, date with month, and CS. one below the other - Pl.No.VII. No. 46/ a and b.

As this backstamp was to be used for heavy mail, two dies were prepared which were in use till 1321F/1330H/1912.

Head Offices of some districts had a similar type - Pl.VII. No. 46/c.

2. For Hyderabad a new die, with "Fa" after the year, appeared in 1322F/1331H/1913, and was replaced by another die in 1326F/1335H/1917 - Pl. VII. No. 47/a. The size was increased to 28 mm. but the setting was not changed. It was used till 1329F/1338H/1919, and was given for other important post offices also. It was again used by Hyderabad during 1332-1333H/1341-1342H/1922-1923, and 1338 to 1340F/1347-1349H/1928-1930.

For Pathargutti, the size was of 30 mm. diameter, but with the same setting - Pl.VII. No. 47/b.

3. " / Date / Name & (Taqsim) / Time
4. " / Name / Taqsim - Time / Date

3. (c) TAQSIM (Contd).

with Time and "Subh" or "Sham"

3. In the second half of 1329F/1338H/1920, "subh" - morning, or "sham" - evening, was added to the time of delivery replacing the numbers. The circles were of 28 to 32 mm. diameters, and the setting different in these handstamps.

(a). For Hyderabad, the size of circle was 28 mm. diameter, and the setting in four lines - year with "Fa", "Taqsim" with time and "subh" or "sham", name of post office, date, but no CS. - Pl. VIII. No. 48/a.

(b). For Bir, the size was 30 mm. diameter, and the setting in five lines - year with "Fa", time with "subh" or "sham", "taqsim", name of post office, date, but no CS. - Pl.VIII. No. 48/b.

(c). For Gulbargah, the size was 25 mm. diameter, and the setting was the same bu CS was at the bottom - Pl. VIII. No. 48/c.

4. (a). The sare size, but with big hypens in between date, and time:- year with "Fa", date, Aurangabad "taqsim" time, with "subh" or "sham", and CS. - Pl.VIII. No. 149/a.

(b). The same size, but zigzag setting - year with "Fa", Bidar, time "Taqsim", date and CS- Pl. VIII. No.49/b.

(c). Size 32 mm. diameter having year with "Fa" "taqsim" with time and "subh" or "sham", Sailu, date and CS - Pl. VIII. No. 49/c.

5. For Hanamkonda there was no time. The size was of 30 mm. diameter having year with 'Fa" on top, followed by "taqsim" and "subh" or "sham", name of post office, date and CS. one below the other - Pl. VIII. No. 50.

In 1340F/1349H/1930 Pathargatti had the circle of same size with the year without "Fa' on top, followed by "taqsim" with time, but without "subh" or "sham", name, date and CS., one below the other - Pl. VIII. No. 51.

3. (c). "Taqsim" - (Delivery)

The earliest recorded delivery handstamp for Hyderabad is of 28 Shehrawar, 1307F/25 Rabi I, 1316H/4 August, 1898.

It was a plain circle of 25 mm. diameter having "Taqsim", Hyderabad, the date with month and the year without "Fa", and CS, one below the other - Pl. X. No. 71.

A new die of the same size had the year deleted - Pl. X. No. 72.

It is found on a cover of Amardad 1308/Rabi I, 1317/June, 1899, and was used in 1309F/1318H/1900 also.

In 1334F, "Sadar Tappa Khana" was used as a suffix with "Haidarabad", and a new die prepared in which "subh" or "Sham" was dropped.

The circle was of 27 mm. diameter, with "Haidarabad" on top, followed by "Sadar Tappa Khana", "Taqsim" with time; the date with month and the year in a line, with "Fa" above last two digits of the year, and CS., one below the other.

This type which was of clear script was used till 1335F/1344H/1925, - Pl. X. No. 73/a; and then another die, with crude script, was brought in, and used till first half of 1338F/1347H/1929 - Pl.X.No.73/b.

The numerals 6 to 12, for the hours, are misleading. These are not delivery numbers.

A circle of 31 mm. diameter, had "Sikandarabad" on top, "taqsim", time with "subh" or "sham"; the date with month and the year without "Fa" and CS. one below the other - Pl. X. No. 74.

(c). "Taqsim" - (Delivery)

There were a good few patterns, sizes and settings for the delivery handstamps. These were introduced soon after the calendar was changed from Hijri to Fasli in

(c). "Taqsim" - (Delivery)

There were a good few patterns, sizes and settings for the delivery handstamps. These were introduced soon after the calendar was changed from Hijri to Fasli in 1316H/1307F/1898.

The concentric circle type was a general die with variations in the settings, sizes and patterns.

(a). In 1338F/1347H/1928, a handstamp like No. 24 was used by "Haidarabad Sadar Tappa Khana", which appeared in the upper half of outer rim. The upper segment, of 8 mm., had "Taqsim" and CS below - Pl. V. No. 25.

This type was used till 1340F/1349H/1930.

(b). Bilingual pattern was adopted for Hyderabad and a few District Head Offices.

i. For Hyderabad and Pathargatti the concentric circles were of 32 and 20 mm. diameters, with horizontal bands of 5 and 6 mm. for date, and time with "subh" or "sham" respectively. In the upper rim was "Haidarabad Sadar Tappa Khana",

3. (c). Taqsim - (Delivery).

For a few post offices the following delivery handstamps were used.

The concentric circles were of 3 and 22 mm. diameters. In the outer rim the name of the Post Office was on top and CS at the bottom. In the inner circle the setting was "Taqsim", date and time.

One Town Sub Office - Khairatabad; and two District Head Offices - Gulbarga and Mahbubnagar used this type.

Three variations are noted in Khairatabad.

(i). The year was in full 133(6) F, with a line under the numerals. "Subh" (morning) or "sham" (evening) in between the hour and minutes - Pl. IV. No. 13/a.

(ii). The year was abbreviated - 36F - and "subh" or "sham" deleted - Pl. IV. No. 13/b.

(iii). Like 13/b, but "subh" or "sham" placed to the left - Pl. IV. No. 13/c.

Gulbarga had the year in full with a line under the year, and "subh" or "sham" after the hour and minutes- Pl. IV. No. 13/d.

Mahbubnagar had a peculiar setting. Below Taqsim was the month and the year in full with "Fa", but the date was inserted with the time, as the script was bold and there was no space for it.

(i). Date is placed to the left of "subh", and time to its right - Pl. IV. No. 13/e.

(ii). Vice-Versa - Pl. IV. No. 13/f.

III-c. TAQSIM - DELIVERY.
HAIDARABAD SADAR TAPPAKHANA — 6 Dies - 1342-59F/1352-69H/1933-50.
TYPE VII. Cat. Nr: 43.

(c). "Taqsim" - Delivery

1. A new delivery handstamp in this type was given to Hyderabad. It was a modification of Nos. 91 and 93 having "Taqsim" in place of "Mausulah" or "Majariyah".

The circle was of same size. The upper segment of 14 mm. had the name of the post office, and two bands, of 5½ mm. each, had the date above, and the time below. The lower segment of 7 mm. had "Taqsim" - Pl. XI. No.94/ a and b.

For "Haidarabad" there were six dies from 1342F/ 1352H/1933 to the end. "Sadar Tappa Khana" was used as a suffix in all of them. The scripts were crude or fine.

2. During this period some Town Sub Offices, and District Head Offices used this type - Pl. XI. Nos. 95/a & b.

3. Khammam, an important town in Warangal District, had "Ghantah" - hour - in between the numeral, for time; and "subh" or "sham".

So far only two Post Offices, (the other being - Khairatabad), are seen with this additional word - Pl. XII. No. 96.

4. In 1358F/1368H/1948 the Government of Hyderabad, after the Police Action, divided Hyderabad into fourteen Postal Zones for which new handstamps were issued in this type.

For "Sadar Tappa Khana Haidarabad" - Hyderabad Head Post Office - No. 1 was reserved but not alloted.

The zonal numbers brought to light, so far, are:-

AFZALGANJ, 1351F. S.39x14 — 39x12½ m.m.

12. From 1330F/1339H/1920 to the end, printed labels, with the alphabet "Ra" to the right, and the Arabic numerals, to the left, printed serially, were adopted. The rectangular handstamp of the post office was used over this label.

The sizes of the labels varied from 39 x 14 to 41 x 17 mm. The label having the number only was of 36 x 24 mm.

The printing was in black. So far one is found in blue.

These handstamps, R-IX (a to e), for use over the labels were also of varying sizes - 36 to 49 mm. in length and 10 to 13 mm in depth depending upon the names of the post offices - Pl. XV. Nos. 120/a to e.

For date stamps used by this section, refer Plates VI, VIII, X and XII, Nos: 28-31;52-54;75-76, and 98-99.

No. 76

4. (a). Registeration:

In 1334F/1343H/1925, when "Haidarabad" had "Sadar Tappa Khana" added to it, a new handstamp was adopted using "Ra" in thulth script.

The circle was of 27 mm. diameter, with "Haidarabad" above, and "Sadar Tappa Khana" below it, followed by "Ra", the date and CS., one below the other - Pl. X. No.75.

There were two dies, and this type continued till the middle of 1338F/1347H/1929.

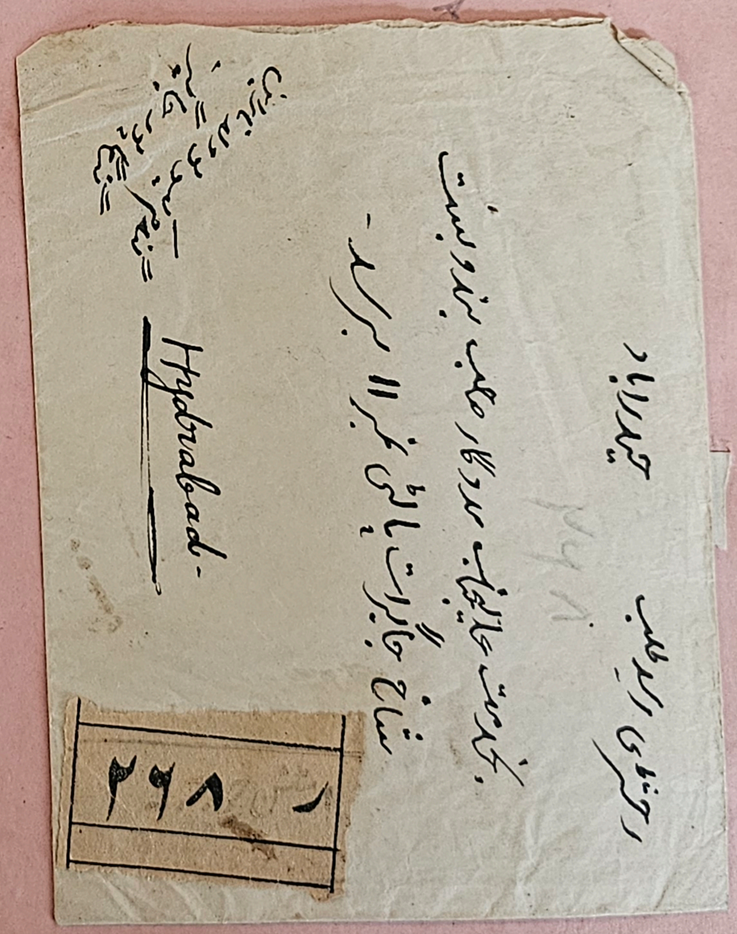
No. 75.



4. Registration, Parcel etc.

a. Registration

In 1338F/1347H/1929, the general type of concentric circles was introduced for "Haidarabad Sadar Tappa Khana", the Head Offices of the Districts, and a few other important post offices.

The concentric circles were of 32 and 18 mm diameters, with a central horizontal band of 6 mm. for the date. The name of the post office was above and CS. below. The upper segment had different wordings and the lower one was either blank, or with seven vertical lines - Pl. VI. Nos. 28 and 29.

No. 28/a had "Ra" in naskh script.

No. 28/b had "Ra" in nasta'liq script.

No. 29/a had "Registary" in place of "Ra".

No. 29/b also had "Registary", but with seven vertical bars in the lower segment.

In 1340F/1349H/1931 the bi-lingual type was adopted for a few post offices.

The concentric circles, and the horizontal band for the date, were of the same sizes. The name of the Post Office, in Urdu, was in the upper part of the outer rim; and the same, in English, in the lower part.

153

4. REGISTRATION ETC.

(a). Registration:

For details about this system please refer page 37

In 1351F/1360H/1941, this type was adopted for all important post offices having the transliteration "Registary" in the lower segment.

The size of the circle was of 31 mm. diameter with a horizontal band of 6 mm. for date. There were variations in the size of script. - Pl. XII. No. 98/a.

For "Haidarabad Sadar Tappa Khana" there were two dies.

For some post offices there was an extra band for time, which was invariably left blank, as by Latur - Pl. XII. No. 98/b.

In 1343F/1353H/1934, "Sadar Tappa Khana Haidarabad", and later on its main branch, "Tappa Khana Jubilee", had "Taqsim" - delivery - added as prefix to "Registary" for both types, single and double bands - Pl. XII. Nos. 98/a and b.
